			Woodrow.

The Senate adjourned during pleasure.

After a while, His Excellency the Governor General having come, and being seated upon the Throne—

The Honourable the Speaker commanded the Gentleman Usher of the Black Rod to proceed to the House of Commons and acquaint that House that,—

“It is His Excellency the Governor General’s pleasure that they attend him immediately in the Senate Chamber.”

The House of Commons being come,

His Excellency the Governor General was then pleased to open the Session by a Gracious Speech to both Houses, as follows:—

Honourable Members of the Senate:

Members of the House of Commons:

It affords me great pleasure to greet you as you resume your Parliamentary duties at the beginning of this New Year.

Since you last met, the people of Canada have been given an opportunity of extending once more an affectionate welcome to Her Majesty, Queen Elizabeth, the Queen Mother. They have also had the pleasure of greeting again the consort of our Sovereign, the Duke of Edinburgh, who came to attend the British Empire and Commonwealth Games held in Vancouver during the summer and to visit northern parts of Canada.

While there is hopeful evidence that the increasing strength of the free world has lessened the likelihood of aggression, the terrible destruction that war would bring to North America and indeed to all mankind has been magnified by the increase in the number and effectiveness of atomic and thermonuclear weapons and the means of delivering them.

My Ministers are convinced that, while the resources of diplomacy must never be neglected in the search for peace, the efforts of the free nations in building their deterrent forces must be maintained. To this end, Canada was represented at the London and Paris Conferences which formulated an alternative to the European Defence Community and provided for the entry of the Federal Republic of Germany into the North Atlantic Treaty Organization. You will be asked to approve the agreements reached at those meetings.

Our country continues to give full support to the United Nations. The Canadian delegation took an important part in the deliberations of the recent meeting of the General Assembly in New York. It is earnestly hoped that the adoption of the resolution on disarmament introduced in the political committee by the Canadian delegation may lead to agreement on an effective system of international safeguards.

While no final settlement has been reached in Korea, the lessening of the threat of renewed aggression in that area has made possible the withdrawal of a substantial portion of the Canadian forces.

At the invitation of the Geneva conference Canada has accepted the heavy responsibility of serving on the Armistice Commissions which have been formed to supervise the restoration of peace in the Associated States of Indo-China.

Last autumn our nation was the host at the annual meeting of the Consultative Committee of the Colombo Plan. You will be asked to approve Canada's continued participation in the Plan as well as in the United Nations' Technical Assistance Programme.

A meeting of Commonwealth Prime Ministers will be held in London at the end of this month to consider a number of problems affecting the peoples of this great association of nations. My Prime Minister plans to attend this conference.

During the summer arrangements were completed to permit the navigational facilities of the St. Lawrence River to be enlarged and a hydro electric project to be undertaken in the International Rapids section.

Work on these two projects has already begun and my Ministers are convinced the stimulus to the national economy resulting from their construction will be shared in all parts of the country.

Since you last met, Cape Breton Island has been linked with the mainland by the new causeway which will be ready for service as soon as the ship canal has been bridged.

It is expected that, in the course of the coming season, the new ferry between North Sydney and Port aux Basques will be in operation and the ferry service between Yarmouth and Bar Harbour started. Construction of a new ferry to operate between Nova Scotia and Prince Edward Island will be undertaken early in the present year.

To improve navigation on the Pacific Coast, you will be asked to make provision at this session for the removal of Ripple Rock.

Canadians learned with deep regret of the loss of life and damage to property caused by two severe storms felt heavily in the Province of Ontario and the Province of Nova Scotia. An agreement has been reached with the Province of Ontario to assist those persons whose homes were damaged or destroyed and assistance has been given under the Agricultural Prices Support Act to the producers of apples in Nova Scotia. You will be asked to make the necessary financial provision for these arrangements.

The Disabled Persons Act which you passed at the last session was proclaimed to come into force at the beginning of the present year. The governments of all the provinces have announced their intention to participate in implementing the programme to assist those who are totally unable to care for themselves; and my Ministers are now in a position to conclude the necessary federal-provincial agreements to bring this humanitarian measure into operation.

Although the national economy is in a generally healthy condition, the relatively poor wheat crop is being reflected by a small decline in the total national income. Some unemployment of a regional and seasonal nature is being experienced. To help meet this situation work on public construction projects already approved is being accelerated and you will be asked to make financial provision for construction in the programmes of various departments and agencies on a scale that will make possible a substantial increase in the total expenditures for this purpose.

The government proposes to introduce legislation immediately for the amendment of the Unemployment Insurance Act to provide for an increase in the duration and scale of supplementary winter benefits. It is also proposing to introduce, during the session, broader amendments designed to make Unemployment Insurance a more effective instrument in providing financial support to unemployed workers.

The National Housing Act, 1954, enacted early in the last session, which authorized lower down-payments and larger loans, and which enabled the chartered banks for the first time to make loans on the security of residential mortgages, has been an important factor in stimulating the construction of a record number of houses in the past year. The prospects are favourable for a high level of house building in 1955.

It is proposed to bring into general operation on the first of February the provision of the Act under which loans may be made for home improvements. In accordance with an undertaking given at the last Session, this section was proclaimed for small holders under the Veterans' Land Act with effect from the first of this year.

You will be asked to consider amendments to the Railway Act relating to the elimination of level crossings. The government also hopes to lay before you during the present session a measure to consolidate the legislation affecting the Canadian National Railways.

Amendments to the Electricity and Fluid Exportation Act and a measure to control works which affect the normal flow of rivers which cross the international boundary will be proposed for the purpose of ensuring that natural resources are developed in the best interests of the Canadian public.

You will be asked to consider a measure to implement a convention between Canada and the United States relating to fisheries research on the Great Lakes.

You will also be asked to consider legislation to provide facilities for loans to fishermen similar to those provided to farmers by the Farm Improvement Loans Act.

The government will submit amendments to the War Veterans Allowance Act to raise the basic rates as well as the ceiling on permissible incomes of recipients of allowances.

You will also be asked to consider amendments to the Blind Persons Act, to lower the age of eligibility and raise the income ceilings.

A measure which will provide for amendments to the National Defence Act and the Defence Services Pension Act will be placed before you.

Legislation will be proposed to replace the Meat and Canned Foods Act by measures to provide for the inspection of meat and for the establishment of standards for all agricultural products.

You will be asked to approve a convention signed by the members of the International Civil Aviation Organization which fixes the responsibility for damage caused to third parties by foreign aircraft.

A joint committee of both Houses will be proposed to examine, in the light of the Municipal Grants Act and possible amendments thereto, the financial and other relationships of the government and the Federal District Commission with the City of Ottawa and neighbouring municipalities.

Among other measures you will be asked to consider amendments to the Defence Production Act, the Government Employees Compensation Act, the Financial Administration Act, the Public Service Superannuation Act, the Historic Sites and Monuments Act, the Radio Act, the Territorial Lands Act, the Library of Parliament Act, the Canada Grain Act, the Northwest Territories Act, the Yukon Act, the Canada Shipping Act, the Emergency Gold Mining Assistance Act and to the Municipal Grants Act.

Members of the House of Commons:

You will be asked to make provision for the public service for the next fiscal year.

Honourable Members of the Senate:

Members of the House of Commons:

I pray that Divine Providence may guide you in the discharge of your responsibilities.

The Commons withdrew.

His Excellency the Governor General was pleased to retire.

The Senate was resumed.

The Honourable Senator Godbout presented to the Senate a Bill intituled: "An Act relating to Railways".

The said Bill was read the first time.

The Honourable the Speaker informed the Senate that a copy of the Speech of His Excellency the Governor General had been left in his hands.

The same was read by the Honourable the Speaker.

With leave of the Senate, and—

On motion it was—

Ordered, That the Speech of His Excellency the Governor General be taken into consideration on Wednesday next.

With leave of the Senate, and—

On motion of the Honourable Senator Godbout, it was—

Ordered, That all the Senators present during this Session be appointed a Committee to consider the Orders and Customs of the Senate and Privileges of Parliament, and that the said Committee have leave to meet in the Senate Chamber when and as often as they please.

With leave of the Senate, and—

On motion of the Honourable Senator Godbout, it was—

Ordered, That pursuant to Rule 77, the following Senators, to wit: the Honourable Senators Aseltine, Beaubien, Gouin, Haig, Hugessen, Macdonald, McDonald, Quinn and Taylor be appointed a Committee of Selection to nominate Senators to serve on the several Standing Committees during the present Session; and to report with all convenient speed the names of the Senators so nominated.

With leave of the Senate, and—

On motion of the Honourable Senator Godbout, it was—

Ordered, That when the Senate adjourns to-day, it do stand adjourned until Tuesday next, at eight o'clock in the evening.

The Senate adjourned.

Office of the Premier
Province of Quebec

Quebec, October 11, 1954.

The Right Honourable Louis S. St-Laurent, P.C., Q.C.,
Prime Minister of Canada,
Ottawa.

My dear Prime Minister:

Since our pleasant meeting last Tuesday in Montreal, my colleagues and I, with particular attention and with the sincere desire of co-operating to the fullest reasonable extent in its solution, have studied the important fiscal problem which was the subject of our interview.

Our legislative assembly opens in a few weeks, on November 17. I need hardly mention the vast additional amount of work involved in its preparation. Moreover, I am leaving this week on a vacation of about ten days' duration, the first I have taken in over a year.

Under the circumstances, even with the best of intentions, it is physically impossible before my departure to obtain and study the statistics which form the basis of the subject. At the earliest possible moment I will write you again on my return.

Nevertheless, I wish to mention here that, if you decide to call a Canadian inter-governmental conference at Ottawa, we will be happy to attend and we will not hesitate to defer our parliamentary work should this conference take place during the session of our legislature.

With my sincere regards,

My dear Premier:

I have received your letter of October 11th and I understand that, under the circumstances, it has not been possible for you to send me the information which, at our meeting of October 5 concerning your suggested amendments to your income tax act, we had agreed you would forward to me.

I hope that, when you receive this letter on your return, you will have had a pleasant and restful vacation and that we will then be able to resume consideration of a temporary and acceptable solution of the matter which is a problem for all of us.

With kind regards,

Yours sincerely,

Office of the Premier
Province of Quebec

Quebec, November 1, 1954.

The Right Honourable Louis S. St-Laurent, P.C., Q.C.,
Prime Minister of Canada,
Ottawa, Ontario.

Dear Mr. Prime Minister:

Pursuant to our interview in Montreal on October 5th last and to the letter I sent you on the 11th of the same month, I am writing you on the subject of the provincial income tax in and for the province of Quebec.

We believe that we clearly defined the opinion and the attitude of the Government of the province of Quebec, in matters of the powers of taxation during the Canadian intergovernmental conferences which were held in Ottawa since 1945 and came to a close at Quebec in 1950, as well as in the correspondence we have had with federal authorities, particularly since 1949.

The agreement concluded between the preceding provincial government and the federal authorities, concerning important provincial powers of taxation, expired in 1947. Since then, the province of Quebec has not availed itself of its right to collect a provincial income tax in the province. This shows the earnest desire of the Quebec government to come to an agreement with Ottawa and, after all, the federal government has profited financially, to a large extent, by this situation which lasted approximately seven years.

The great progress and the tremendous developments, from which our immense province benefits, particularly large and numerous districts which were formerly less-favoured, necessitate numerous public services and many improvements in several important fields of provincial administration, especially in the vital fields of education and hospitalization.

Such tremendous progress and the brilliant prospects before the province require a more complete utilization of the sources of provincial revenue. It is unnecessary to emphasize that the progress and prosperity of the province of Quebec make a truly worthy contribution to the progress and prosperity of the country in general.

Therefore, the Quebec legislature decided to levy, within the province, a provincial tax on personal income. Unquestionably, as agreed by all, it is a tax that the Canadian constitution authorizes Quebec to impose. Actually, this tax represents only approximately 10 per cent of the federal tax on personal income collected in the province of Quebec, because, even though our provincial tax is apparently calculated to be 15 per cent of the federal tax, the exemptions provided by the provincial law materially reduce this proportion.

In short, the provincial tax represents approximately 10 per cent of the federal income tax collected from the taxpayers in the province of Quebec and, by deducting the provincial tax from the federal tax Ottawa will in fact receive about 90 per cent of the tax on personal income collected in the province of Quebec.

The federal authorities assert that the province and the federal government have concurrent rights of taxing personal income. About 10 per cent to the province and about 90 per cent to Ottawa, is an extraordinarily reasonable concurrence, you will no doubt agree. Furthermore, it should be recalled that our provincial income tax is use entirely for purposes of education and hospitalization, public health and social legislation among others, in and for the province.

Since the end of the last war—I merely mention facts without details or appraisal—some provinces have abandoned to the central authority certain important sources of provincial income in return for payment by Ottawa of federal subsidies to these provinces.

We have said on several occasions that the province of Quebec wishes to retain its powers of taxation and does not wish to exchange them for subsidies. We consider it our duty to maintain such an attitude.

We are ready to enter into a really temporary agreement which would grant to the parties concerned a further extension of time to arrive at a definite arrangement. The federal authorities are of the opinion—and we respect their opinion without sharing it—that they have the right to impose taxes in one province to assist certain provincial projects in another province. The province of Quebec has always been and is still ready to co-operate reasonably and in a constitutional manner for the welfare and prosperity of the other provinces of the Canadian confederation.

It is beyond question that the revenue derived from taxes levied by Quebec, including the provincial tax on personal income, and which would be affected by the arrangements arrived at between Ottawa and the other provinces, it is beyond question, I say, that such revenue of the province of Quebec represents much smaller sums than the amount offered by Ottawa to the province of Quebec in its proposal to exchange important sources of provincial revenue for federal subsidies.

In short, the other provinces and the federal authorities, in our humble opinion, cannot reasonably object to the proposal we are making; first, because the amount collected by the province is financially less than the grant offered by the federal government and, secondly, because, as everyone agrees, the province is only exercising an indisputable right. It seems to us only elementary justice that the federal authorities should deduct from their tax on personal income paid to Ottawa by the taxpayers of Quebec, the amount of the provincial income tax which only after all represents a small fraction of the federal tax.

It is our profound conviction that the taxing powers which belong to the province of Quebec must be exercised by the province. These powers, which spring from dearly acquired rights and freedom, are indispensable to responsible government; they are also essential if the province is, freely and in accordance with its religious and national traditions, to exercise its rights and fulfil its obligations, amongst others, those pertaining to the vital fields of education and hospitalization.

In order to reach an agreement concerning the deduction of our provincial tax, we are ready to delete from our act authorizing a provincial tax on personal income the statements, in the preamble, to the effect that the province has a prior right in the matter of direct taxation.

Further, we shall give effect, by order in council, to the decision we have taken, a couple of months ago, with a view to making the tax payable to Quebec on undistributed income and dividends consistent with the federal act. In other words, by virtue of such amendment, the province will only get 15 per cent of the rates authorized by the federal act in such cases.

Our provincial tax act on personal income is for a period of three years, that is to say, for each of the calendar years 1954, 1955 and 1956; we suggest that an agreement to be arrived at between Ottawa and Quebec should be for the same period.

The Quebec government wishes earnestly to reach an amicable settlement of this problem, and we express the hope that the above-mentioned provincial proposals will be favourably received by the federal authorities.

As I wrote you on October 11th, "if you decide to call a Canadian inter-governmental conference at Ottawa, we will be happy to attend and we will not hesitate to defer our parliamentary work should this conference take place during the session of our legislature".

Yours very truly,

(Sgd.) M. L. DUPLESSIS

The Honourable
Maurice L. Duplessis, Q.C., LL.D.,
Premier of the Province of Quebec,
Parliament Buildings,
Quebec, Que.

Dear Mr. Duplessis:

Pursuant to our telephone conversation of Wednesday November 3rd concerning your letter received the day before, I wish to inform you that I am having statistics compiled by our officials of the Department of Finance, with a view to determining what would result, as regards deductions, from the fact that, to establish the taxable income under the federal act and your own Act, the amount of such taxable income would be, for all single taxpayers, \$500.00 less under the Quebec act than the federal act and, for all married taxpayers, \$1,000.00 less.

Possibly, your officers have already prepared compilations to that effect, and if such were the case, it might be a good thing if we were to agree to their contacting ours, so as to prevent the possibility of misunderstanding which would affect the governing rules to be applied in order to eliminate double taxation.

Yours very truly,

Dear Mr. St. Laurent:

I reply as soon as possible to your letter dated November 5th and which was delivered to my office the day before yesterday.

We would be pleased to supply the particulars mentioned in your letter with respect to the effect of the said deductions.

Our minister of finance, the Honourable Mr. Gagnon, is presently taking a few days' holiday. If the officers of the federal Department of Finance, who are compiling the statistical tables to which you refer in your letter, wish to get in touch with my executive assistant, Mr. Emile Tourigny, Q.C., and indicate to him the exact information they wish to obtain concerning the provincial exemptions the reply will be forwarded with all possible dispatch.

Kindly accept, Mr. Prime Minister, my best regards.

Office of the Prime Minister
Canada

Ottawa, January 14, 1955

The Honourable Maurice L. Duplessis, Q.C.,
Premier of the Province of Quebec,
Parliament Buildings,
Quebec, Que.

My dear Premier:

Since receiving your letter of November 1st, my colleagues and I have considered at length the problem raised by the Quebec income tax and by the fact that the taxpayers having to pay it remain subject also to the federal tax.

This is, of course, an inevitable consequence of two jurisdictions exercising their concurrent rights to tax the incomes of the same persons. The only way you suggested to avoid the effect of double taxation upon the taxpayers of Quebec is for us to deduct from the federal tax on the income of each individual an amount equivalent to the amount which he is required to pay as the provincial tax.

In your letter, you state that the provincial tax "represents only approximately 10 per cent of the federal tax on personal income collected in the Province of Quebec because, even though our provincial tax is apparently calculated to be 15 per cent of the federal tax, the exemptions provided by the provincial law materially reduce this proportion". In this quotation from your letter, you refer to two different aspects of the provincial law. When you state that the Quebec tax represents approximately 10 per cent of the federal tax you compare the yield of the provincial tax to the amount produced by the federal tax in the province of Quebec.

When you say that your tax "is apparently calculated to be 15 per cent of the federal tax", you explain this percentage by referring to the scale of exemptions granted by your law. This scale is such that it does not subject to your tax all the Quebec taxpayers who are obliged to pay the federal tax. In order to obtain an amount corresponding to 10 per cent of the amount yielded by the federal tax, it has been necessary to fix, for those who have to pay your tax, a higher rate than if you had distributed the burden over all those we tax.

Provincial legislatures have, like the federal parliament, the right and the responsibility to distribute the burden of their taxes on their taxpayers in whatever way seems most appropriate to them. This is a right and a responsibility which is the same for all provinces, and none of them can be compelled to conform with the course of action followed elsewhere. Whatever differences there may be in the rules adopted by the different provinces, the federal law must be the same everywhere and it must be such as to leave the federal government with the revenues needed to fulfil its national responsibilities.

At present the federal law allows every Canadian taxpayer having to pay a provincial personal income tax to claim a deduction up to 5 per cent of his federal tax. This method of deduction raises certain administrative difficulties and, what is more serious, it makes the real incidence of the provincial tax depend on the terms of the federal law and makes the total amount deducted from the federal tax depend on the terms of the provincial law. Instead of deducting the provincial tax from the federal tax, we intend to propose to parliament a reduction of the federal tax for all taxpayers of a province

having a provincial tax, whether or not they have to pay the provincial tax. Thus, the taxpayers of such a province will receive the benefit of the total amount of the reduction in the federal tax and the federal and provincial authorities will be able to determine, independently of one another, in what way and to what extent their taxpayers will be subjected to their respective taxes.

The 5 per cent deduction allowed at present by the federal law was fixed in 1946. Since that time, two changes have occurred. In the first place, the rates of the federal tax have been reduced with the result that there has been a corresponding reduction in the amount represented by the 5 per cent. In addition, the tax rentals paid by the federal government to the provinces under the tax agreements have been rising as a consequence of the increase in the population and in the national product.

Pending the results of a new federal-provincial conference, we proposed therefore to ask parliament to amend the federal income tax law in order to grant a reduction of 10 per cent to all taxpayers of any province where a provincial income tax is levied whether or not all these taxpayers have to pay the provincial tax. We will recommend that this amendment apply to the years 1955 and 1956. At the same time, we will ask parliament to release from its present agreement any province which would prefer this new arrangement and I am immediately so informing the other premiers.

Moreover, we feel it would be reasonable to make the new percentage apply to taxpayers who have been in fact subjected to two taxes on their 1954 income. We intend, therefore, to propose that the taxpayers who will have paid provincial income tax for 1954 be allowed a deduction up to 10 per cent of their federal tax.

We hope that this action on our part will encourage your government to act in the same spirit and that we will have, on both sides, helped to prepare the atmosphere for useful and fruitful work during the next federal-provincial conference.

In any event, we would have had to meet before the end of 1955 to discuss the fiscal relations of the years which will follow the expiry of the present tax rental agreements. We feel that it might be appropriate to begin the new conference at an earlier date, if that is possible. Upon my return from the commonwealth meeting in London, towards the middle of February, I intend to communicate with the premiers of all the provinces with a view to working out arrangements for a conference and fixing a date for it.

Yours sincerely,

(Sgd.) LOUIS S. ST. LAURENT

Ottawa, January 14, 1955.

The following letter sent to all provincial premiers with the exception of the premier of Quebec.

My dear Premier:

You will no doubt have learned from the press that I have been in communication with the premier of Quebec about the situation created for personal income taxpayers in that province resulting from the imposition of a provincial income tax applicable in the years 1954, 1955 and 1956.

Before this provincial tax was imposed, the situation in Quebec was that the income taxpayers of that province were paying federal taxes at the same rate as other Canadians although the people of Quebec were not receiving the financial advantage for their provincial services that the people of the other provinces were receiving through the tax rental agreements.

Since the imposition of the provincial tax many of the personal income taxpayers in Quebec are required to pay higher personal income taxes than other Canadians, and payments under the tax rental agreements are still unavailable to the people of that province, because the government of the province preferred, as was its right, not to conclude an agreement.

At the time the provincial tax was imposed, the provincial authorities suggested publicly that the total amount of the tax paid to the province should be allowed by the federal authorities as a tax credit against the federal income tax.

If the federal government had accepted this suggestion, we would have felt obliged to make the same concession to any other province, and this would have meant that the effective rate of federal taxation in each province would have been set by the provincial authorities and would have differed from one province to another. We felt that the federal law must be uniform in its application in all provinces.

We did indicate, however, that the federal government was not wedded to the principle of tax rental agreements to the exclusion of any better alternative arrangement if one could be found. At the same time, we made it clear that the present government had no intention of abandoning the objective of the tax rental agreements which is to make it financially possible for all the provinces, whatever their tax base, to perform their constitutional functions themselves and to provide a reasonable Canadian level of provincial services without an abnormal burden of taxation. That is the foundation of the policy of the federal government.

I had a meeting with the premier of Quebec at his request in October and he indicated, at that time, that he was considering making certain amendments to the provincial tax law which he hoped might make some temporary arrangement possible. My colleagues and I felt it was our duty to make every effort to find some alternative to the tax rental agreements which would preserve the fundamental objective of those agreements which I have mentioned and at the same time be more acceptable to all provincial governments.

We are not yet in a position to propose an alternative to the tax rental agreements which we believe would be generally satisfactory and, as the agreements still have two years to run, we felt that, meanwhile, we should propose a stop-gap arrangement which, without being unfair to the other provinces, would reduce the burden of double taxation placed on many of the income taxpayers in the province of Quebec.

I have already indicated that we could not meet the suggestion of the Quebec authorities and allow the whole of their income tax to be deducted from the federal tax, unless we were prepared to accord a similar right to any other province.

It is our view that whatever differences there may be in the tax laws adopted by the different provinces, the federal laws must be the same everywhere and must be such as to leave the federal government with the revenues needed to fulfil its national responsibilities.

At present the federal law allows every Canadian taxpayer having to pay a provincial personal income tax to claim a deduction up to 5 per cent of his federal tax. This method of deduction raises certain administrative difficulties and, what is even more serious, it makes the real incidence of the

provincial tax depend on the terms of the federal law and makes the total amount deducted from the federal tax depend on the terms of the provincial law. Instead of deducting the provincial tax from the federal tax we intend to propose a reduction of the federal tax for all taxpayers of a province having a provincial tax, whether or not they have to pay the provincial tax. Thus, the taxpayers of such a province will receive the benefit of the total amount of the reduction in the federal tax and the federal and provincial authorities will be able to determine, independently of one another, in what way and to what extent their taxpayers will be subjected to their respective taxes.

The 5 per cent deduction allowed at present by the federal law was fixed in 1946. Since that time, two changes have occurred. In the first place, the rates of the federal tax have been reduced with the result that there has been a corresponding reduction in the amount represented by the 5 per cent. In addition, the tax rentals paid by the federal government to the provinces under the tax agreements have been rising as a consequence of the increase in the population and in the national product.

Pending the results of a new federal-provincial conference, we propose, therefore, to ask parliament to amend the federal income tax law in order to grant a reduction of 10 per cent to all taxpayers of any province where a provincial income tax is levied whether or not all these taxpayers have to pay the provincial tax. We will recommend that this amendment apply to the years 1955 and 1956. At the same time, we will ask parliament to release from its present agreement any province which would prefer this new arrangement.

Moreover, we feel it would be reasonable to make the new percentage apply to taxpayers who have been in fact subjected to two taxes on their 1954 income. We intend, therefore, to propose that income taxpayers who will have paid a provincial tax for 1954 be allowed a deduction up to 10 per cent of their federal tax.

I shall be glad to know at your convenience whether your government would wish to be released from the tax rental agreement in order to take advantage of the proposed new arrangement for 1955 and 1956.

It had always been understood that it would be necessary to hold a federal-provincial conference before the end of 1955 to discuss fiscal arrangements for the years which will follow the present tax rental agreements. In the light of recent developments it might be the desire of the provincial governments to have this conference held at an earlier date.

I shall accordingly communicate with you again shortly after my return from the commonwealth prime ministers' meeting in London towards the middle of February with a view to working out arrangements for a conference at a time which will be satisfactory to all governments concerned.

Yours sincerely,

(Sgd.) LOUIS S. ST. LAURENT

The Convention on Relations between the Three Powers and the Federal Republic of Germany, the Convention on the Rights and Obligations of Foreign Forces and their Members in the Federal Republic of Germany, the Finance Convention, the Convention on the Settlement of Matters arising out of the War and the Occupation, signed at Bonn on 26 May 1952, the Protocol signed at Bonn on 27 June 1952 to correct certain textual errors in the aforementioned Conventions, and the Agreement on the Tax Treatment of the Forces and their Members signed at Bonn on 26 May 1952, as amended by the Protocol signed at Bonn on 26 July 1952, shall be amended in accordance with the five Schedules to the present Protocol and as so amended shall enter into force (together with subsidiary documents agreed by the Signatory States relating to any of the aforementioned instruments) simultaneously with it.

ARTICLE 2

Pending the entry into force of the arrangements for the German Defence Contribution, the following provisions shall apply:

- (1) The rights heretofore held or exercised by the United States of America, the United Kingdom of Great Britain and Northern Ireland and the French Republic relating to the fields of disarmament and demilitarisation shall be retained and exercised by them, and nothing in any of the instruments mentioned in Article 1 of the present Protocol shall authorise the enactment, amendment, repeal or deprivation of effect of legislation or, subject to the provisions of paragraph (2) of this Article, executive action in those fields by any other authority.
- (2) On the entry into force of the present Protocol, the Military Security Board shall be abolished (without prejudice to the validity of any action or decisions taken by it) and the controls in the fields of disarmament and demilitarisation shall thereafter be applied by a Joint Four-Power Organization to which each of the Signatory States shall appoint one representative and which shall take its decisions by majority vote of the four members.
- (3) The Governments of the Signatory States will conclude an administrative agreement which shall provide, in conformity with the provisions of this Article, for the establishment of the Joint Four-Power Commission and its staff and for the organization of its work.

ARTICLE 3

- (1) The present Protocol shall be ratified or approved by the Signatory States in accordance with their respective constitutional procedures. The Instruments of Ratification or Approval shall be deposited by the Signatory States with the Government of the Federal Republic of Germany.
- (2) The present Protocol and subsidiary documents relating to it agreed between the Signatory States shall enter into force upon the deposit by all the Signatory States of the Instruments of Ratification of Approval as provided in paragraph 1 of this Article.

- (3) The present Protocol shall be deposited in the Archives of the Government of the Federal Republic of Germany, which will furnish each Signatory State with certified copies thereof and notify each State of the date of entry into force of the present Protocol.

2. Résumé of the Five Schedules Attached to the Protocol on the Termination of the Occupation Régime

(i) Schedule I

This Schedule amends the former "Convention on Relations between the Three Powers and the Federal Republic of Germany". The introductory words have changed since 1952 from "the three Occupying Powers" to a list of the four Powers who have "entered into the following Convention setting forth the basis of their new relationship".

Article 1 of the Schedule states that the three Powers will terminate the Occupation régime in Western Germany, revoke the Occupation Statute, and abolish the offices of the *Land* Commissioners. The Federal Republic is accorded "the full authority of a sovereign State over its internal and external affairs".

Article 2 lays down that the Three Powers retain their rights "relating to Berlin and to Germany as a whole, including the reunification of Germany and a peace settlement".

In the original Convention, Article 2 had included in these reservations, the right to station troops in Germany. Under the new arrangements, allied troops will remain in Germany as at present "pending the entry into force of the arrangements for the German defence contribution" and, after that, remain with the consent of the Federal Government. Their position is covered in a separate convention, the text of which is given below. Thus, the new status of the Federal Republic is taken into consideration without jeopardising the rights of the three Powers in Berlin.

Articles 4 and 5 deal with the responsibilities obtained by the three Powers relating to the stationing of armed forces in Germany and the protection of their security. The Convention states that, after the coming into force of the German defence contribution, "the forces of the same nationality and effective strength as at that time may be stationed in the Federal Republic." The Convention is open to any State which is not a signatory but which had forces stationed in Germany on October 23, 1954—i.e. Belgium, the Netherlands, Canada, Luxembourg and Denmark. The Convention is to expire "with the conclusion of a German peace settlement or if at an earlier time the signatory States agree that the development of the international situation justifies new arrangements".

With regard to the protection of the security of allied forces in Germany, allied rights "shall lapse when the appropriate German authorities have obtained similar powers under German legislation enabling them to take effective action to protect the security of those forces, including the ability to deal with a serious disturbance of public security and order". (See the letters from the Chancellor to the three foreign Ministers reproduced as the first letter below).

Article 10 of the Schedule sets out the terms under which the Convention may be reviewed; they are:

(a) "Upon request of any one of them, in the event of the reunification of Germany, or an international understanding being reached with the participation or consent on steps towards bringing about the reunification of Germany, or the creation of a European federation".

(b) "In any situation which all the signatory States recognize has resulted from a change of a fundamental character in the conditions prevailing at the time of the entry into force of the present convention".

(ii) Schedule II and III

Schedule II amends the Convention on the Rights and Obligations of foreign forces and their members in the Federal Republic. The third Schedule brings up to date the Finance Convention. The German Government will provide a monthly average contribution of 600m. marks for the support of the allied forces from the entry of the Convention into force until the arrangements for the German defence contribution are completed. These provisions apply only until June 30th, 1955. During the first year of the German defence contribution, the Federal Republic will make available a total amount of 3,200m. marks for the support of the allied forces.

Schedules IV & V

Schedule IV amends the Convention "on the Settlement of Matters arising out of the war and the occupation". It makes clear that existing programmes of de-centralization will be completed. Legislation concerning the reorganization of the German coalmining, iron and steel industries being applied at the time of the entry into force of the present arrangements "shall be maintained in force insofar and so long as de-concentration measures ordered before that date are still to be carried out or claimants are still to be protected."

Article 10 sets up a mixed committee of experts whose task is defined as the consideration of "applications for extensions of the final time for the disposition of securities required by regulations or orders of the Allied High Commission or its subordinate bodies or by reason of the terms of a plan approved by any such order"

The eight-line Schedule V makes three alterations in the "Agreement on the Tax Treatment of the forces and their members", in the original Bonn Agreement.

Declaration of the Federal Republic on Aid to Berlin

In view of the special role which Berlin has played and is destined to play in the future for the self preservation of the free world, aware of the ties connecting the Federal Republic with Berlin as the prospective capital of a free, reunified Germany,

resolved to consolidate these ties within the framework of the status of Berlin,

resolved to continue its aid to the political, cultural, economic and financial reconstruction of Berlin, and,

motivated by the desire to strengthen and to reinforce the position of Berlin in all fields, and in particular to bring about in so far as possible an improvement in the economic and financial situation in Berlin including its productive capacity and level of employment,

the Federal Republic undertakes

- (a) to take all necessary measures on its part in order to ensure the maintenance of a balanced budget in Berlin through appropriate assistance;
- (b) to take adequate measures for the equitable treatment of Berlin in the control and allocation of materials in short supply;
- (c) to take adequate measures to ensure that Berlin also benefits from resources at the disposal of the Federal Republic received from outside sources, for the necessary further economic reconstruction of Berlin;

- (d) to take all appropriate measures designed to promote the placing of public and private orders in the Berlin economy;
- (e) to promote the development of Berlin's external trade, to accord Berlin such favoured treatment in all matters of trade policy as circumstances warrant and to provide Berlin within the limit of possibility and in consideration of the participation of Berlin in the foreign currency control by the Federal Republic, with the necessary foreign currency;
- (f) to take all necessary measures on its part to ensure that the city remains in the currency area of the Deutsche Mark West, and that an adequate money supply is maintained in the city;
- (g) to assist in the maintaining in Berlin of adequate stockpiles of supplies for emergencies;
- (h) to use its best efforts for the maintenance and improvement of trade and of communications and transportation facilities between Berlin and the Federal territory, and to co-operate in accordance with the means at its disposal in their protection or their re-establishment;
- (i) to continue its efforts to compensate, as heretofore, the disproportionate burden placed on Berlin as a result of the admission of refugees;
- (j) to ensure the representation of Berlin and of the Berlin population outside Berlin, and to facilitate the inclusion of Berlin in the international agreements concluded by the Federal Republic, provided that this is not precluded by the nature of the agreements concerned.

Paris, 23rd October 1954

His Excellency,
The Chancellor of the Federal Republic of Germany.

Mr. Chancellor,

I have the honour to acknowledge the receipt of your letter of today's date which reads as follows:

"Under the Protocol on the Termination of the Occupation Régime in the Federal Republic of Germany, signed at Paris today, provision is made that during the period, if any, between its entry into force and the entry into force of the arrangements for the German Defence Contribution, the United Kingdom, the United States and the French Republic will retain their existing rights relating to the fields of disarmament and demilitarisation, and the controls in those fields will be applied by a joint Four Power Commission. I should appreciate it if you would confirm the agreement which we reached at London in this connection that at the end of 1954 the Governments which have today signed the Protocol will review this matter in the light of the situation then existing with regard to the entry into force of the Protocol. I should likewise appreciate confirmation of the agreement also reached in this connection at London that, at the same time, the four Governments will review the exercise of the controls with a view to permitting preparation by the Federal Republic for its future defence contribution."

I should confirm the agreements to which you refer in your letter.

Accept, Mr. Chancellor, the renewed assurance of my highest consideration.

Her Britannic Majesty's
Principal Secretary of State
for Foreign Affairs

Convention on the presence of Foreign Forces in the Federal Republic of Germany

In view of the present international situation and the need to ensure the defence of the free world which require the continuing presence of foreign forces in the Federal Republic of Germany, the United States of America, the United Kingdom of Great Britain and Northern Ireland, the French Republic and the Federal Republic of Germany agree as follows:

ARTICLE 1

1. From the entry into force of the arrangements for the German Defence Contribution, forces of the same nationality and effective strength as at that time may be stationed in the Federal Republic.

2. The effective strength of the forces stationed in the Federal Republic of Germany pursuant to paragraph 1 of this Article may at any time be increased with the consent of the Government of the Federal Republic.

3. Additional forces of the States parties to the present Convention may enter and remain in the Federal territory with the consent of the Government of the Federal Republic for training purposes in accordance with the procedures applicable to forces assigned to the Supreme Allied Commander Europe, provided that such forces do not remain there for more than thirty days at any one time.

4. The Federal Republic grants to the French, the United Kingdom and the United States forces the right to enter, pass through, and depart from the territory of the Federal Republic in transit to or from Austria (so long as their forces continue to be stationed there) or any country Member of the North Atlantic Treaty Organization, on the same basis as is usual between Parties to the North Atlantic Treaty or as may be agreed with effect for all Member States by the North Atlantic Council.

ARTICLE 2

The present Convention shall be open to accession by any State not a Signatory, which had forces stationed in the Federal territory on the date of the signature of the Protocol on the Termination of the Occupation Régime in the Federal Republic of Germany signed at Paris on 23rd October 1954. Any such State, desiring to accede to the present Convention, may deposit with the Government of the Federal Republic an Instrument of Accession.

ARTICLE 3

1. The present Convention shall expire with the conclusion of a German peace settlement or, if at an earlier time the Signatory States agree that the development of the international situation justifies new arrangements.

2. The Signatory States will review the terms of the present Convention at the same time and subject to the same conditions as provided for in Article 10 of the Convention on Relations between the Three Powers and the Federal Republic of Germany.

ARTICLE 4

1. The present Convention shall be ratified or approved by the Signatory States and Instruments of Ratification or Approval shall be deposited by them with the Government of the Federal Republic of Germany which shall notify each Signatory State of the deposit of each Instrument of Ratification or Approval. The present Convention shall enter into force when all the Signatory States have made such deposit and the Instrument of Accession of the Federal Republic of Germany to the North Atlantic Treaty has been deposited with the Government of the United States of America.

2. It shall also enter into force on that date as to any acceding State which has previously deposited an Instrument of Accession in accordance with Article 2 of the present Convention and, as to any other acceding State, on the date of the deposit by it of such an Instrument.

3. The present Convention shall be deposited in the Archives of the Government of the Federal Republic of Germany, which will furnish each State party to the present Convention with certified copies thereof and of the Instruments of Accession deposited in accordance with Article 2 and will notify each State of the date of the entry into force of the present Convention and the date of the deposit of any Instrument of Accession.

IN FAITH WHEREOF the undersigned Representatives duly authorized there have signed the present Convention.

5. Three-Power Declaration on Berlin

The following statement was issued on 23rd October 1954, by the Foreign Ministers of the French Republic, the United Kingdom and the United States of America:

"With respect to Berlin, in addition to the Allied Security guarantees for the city in the London communiqué of October 3, 1954, the Foreign Ministers of France, the United Kingdom and the United States have noted with deep satisfaction the close and friendly co-operation between the Allied and Berlin authorities. The Three Powers are determined to ensure the greatest possible degree of self-government in Berlin compatible with Berlin's special situation. Accordingly, the three Governments have instructed their representatives in Berlin to consult with the authorities of that city with a view to implementing jointly and to the fullest degree possible the foregoing principles."

C—NINE-POWER CONFERENCE

1. Declaration inviting Italy and the Federal Republic of Germany to accede to the Brussels Treaty

The Governments of Belgium, France, Luxembourg, the Netherlands and the United Kingdom Parties to the Brussels Treaty of March the 17th, 1948 for collaboration in economic, social and cultural matters and for legitimate collective self-defence;

Aware that the principles underlying the association created by the Brussels Treaty are also recognised and applied by the Federal Republic of Germany and Italy;

Noting with satisfaction that their devotion to peace and their allegiance to democratic institutions constitute common bonds between the countries of Western Europe;

Convinced that an association with the Federal Republic of Germany and Italy would represent a new and substantial advance in the direction already indicated by the Treaty;

DECIDE,

in application of Article IX of the Treaty, to invite the Federal Republic of Germany and Italy to accede to this Treaty, as modified and completed in accordance with the decisions of the Conference held in London from September the 28th to October the 3rd, 1954, which are recorded in its Final Act.

2. Protocol modifying and completing the Brussels Treaty

His Majesty the King of the Belgians, the President of the French Republic, President of the French Union, Her Royal Highness the Grand Duchess of Luxembourg, Her Majesty the Queen of the Netherlands and Her Majesty the Queen of the United Kingdom of Great Britain and Northern Ireland and of Her other Realms and Territories, Head of the Commonwealth, Parties to the Treaty of Economic, Social and Cultural Collaboration and Collective Self-Defence, signed at Brussels on March the 17th, 1948, hereinafter referred to as the Treaty, on the one hand,

and the President of the Federal Republic of Germany and the President of the Italian Republic on the other hand,

Inspired by a common will to strengthen peace and security;

Desirous to this end of promoting the unity and of encouraging the progressive integration of Europe;

Convinced that the accession of the Federal Republic of Germany and the Italian Republic to the Treaty will represent a new and substantial advance towards these aims;

Having taken into consideration the decisions of the London Conference as set out in the Final Act of October the 3rd, 1954 and its Annexes;

Have appointed as their Plenipotentiaries:

.....

Who, having exhibited their full powers found in good and due form,

Have agreed as follows:

ARTICLE I

The Federal Republic of Germany and the Italian Republic hereby accede to the Treaty as modified and completed by the present Protocol.

The High Contracting Parties to the present Protocol consider the Protocol on Forces of Western European Union (hereinafter referred to as Protocol No. II), the Protocol on the Control of Armaments and its Annexes (hereinafter referred to as Protocol No. III), and the Protocol on the Agency of Western European Union for the Central of Armaments (hereinafter referred to as Protocol No. IV) to be an integral part of the present Protocol.

ARTICLE II

The sub-paragraph of the Preamble to the Treaty: "to take such steps as may be held necessary in the event of renewal by Germany of a policy of aggression" shall be modified to read: "to promote the unity and to encourage the progressive integration of Europe".

The opening words of the 2nd paragraph of Article I shall read: "The co-operation provided for in the preceding paragraph, which will be effected through the Council referred to in Article VIII . . .".

ARTICLE III

The following new Article shall be inserted in the Treaty as Article IV: "In the execution of the Treaty the High Contracting Parties and any organs established by Them under the Treaty shall work in close co-operation with the North Atlantic Treaty Organization".

Recognising the undesirability of duplicating the Military Staffs of NATO, the Council and its agency will reply on the appropriate Military Authorities of NATO for information and advice on military matters.

Articles IV, V, VI and VII of the Treaty will become respectively Articles V, VI, VII and VIII.

ARTICLE IV

Article VIII of the Treaty (formerly Article VII) shall be modified to read as follows:

"1. For the purposes of strengthening peace and security and of promoting unity and of encouraging the progressive integration of Europe and closer co-operation between Them and with other European organizations, the High Contracting Parties to the Brussels Treaty shall create a Council to consider matters concerning the execution of this Treaty and of its Protocols and their Annexes.

"2. This Council shall be known as the 'Council of Western European Union'; it shall be so organized as to be able to exercise its functions continuously; it shall set up such subsidiary bodies as may be necessary: in particular it shall establish immediately an Agency for the Control of Armaments whose functions are defined in Protocol No. IV.

"3. At the request of any of the High Contracting Parties the Council shall be immediately convened in order to permit Them to consult with regard to any situation which may constitute a threat to peace, in whatever area this threat should arise, or a danger to economic stability.

"4. The Council shall decide by unanimous vote questions for which no other voting procedure has been or may be agreed. In the cases provided for in Protocols II, III and IV it will follow the various voting procedures, unanimity, two-thirds majority, simple majority, laid down therein. It will decide by simple majority questions submitted to it by the Agency for the Control of Armaments".

ARTICLE V

A new Article shall be inserted in the Treaty as Article IX: "The Council of Western European Union shall make an Annual Report on its activities and in particular concerning the control of armaments to an Assembly composed of representatives of the Brussels Treaty Powers to the Consultative Assembly of the Council of Europe".

The Articles VIII, IX and X of the Treaty shall become respectively Articles X, XI and XII.

ARTICLE VI

The present Protocol and the other Protocols listed in Article I above shall be ratified and the instruments of ratification shall be deposited as soon as possible with the Belgian Government.

They shall enter into force when all instruments of ratification of the present Protocol have been deposited with the Belgian Government and the instrument of accession of the Federal Republic of Germany to the North Atlantic Treaty has been deposited with the Government of the United States of America.

The Belgian Government shall inform the governments of the other High Contracting Parties and the Government of the United States of America of the deposit of each instrument of ratification.

IN WITNESS whereof the above-mentioned Plenipotentiaries have signed the present Protocol and have affixed thereto their seals.

DONE at Paris this twenty third day of October 1954 in two texts, in the English and French languages, each text being equally authoritative in a single copy which shall remain deposited in the archives of the Belgian Government and of which certified copies shall be transmitted by that Government to each of the other Signatories.

Protocol No. II on Forces of Western European Union

His Majesty the King of the Belgians, the President of the French Republic, President of the French Union, the President of the Federal Republic of Germany, the President of the Italian Republic, Her Royal Highness the Grand Duchess of Luxembourg, Her Majesty the Queen of the Netherlands, and Her Majesty the Queen of the United Kingdom of Great Britain and Northern Ireland and Her other Realms and Territories, Head of the Commonwealth, Signatories of the Protocol Modifying and Completing the Brussels Treaty,

Having consulted the North Atlantic Council,

Have appointed,

Have agreed as follows:

ARTICLE I

1. The land and air forces which each of the High Contracting Parties to the present Protocol shall place under the Supreme Allied Commander Europe in peacetime on the mainland of Europe shall not exceed in total strength and number of formations:

- (a) for Belgium, France, the Federal Republic of Germany, Italy and the Netherlands, the maxima laid down for peacetime in the Special Agreement annexed to the Treaty on the Establishment of a European Defence Community signed at Paris, on 27th May, 1952; and
- (b) for the United Kingdom, four divisions and the Second Tactical Air Force,
- (c) for Luxembourg, one regimental combat team.

2. The number of formations mentioned in paragraph 1 may be brought up to date and adapted as necessary to make them suitable for the North Atlantic Treaty Organization, provided that the equivalent fighting capacity and total strengths are not exceeded.

3. The statement of these maxima does not commit any of the High Contracting Parties to build up or maintain forces at these levels, but maintains their right to do so if required.

ARTICLE 2

As regards naval forces, the contribution to NATO Commands of each of the High Contracting Parties to the present Protocol shall be determined each year in the course of the Annual Review (which takes into account the recommendations of the NATO military authorities). The naval forces of the Federal Republic of Germany shall consist of the vessels and formations necessary for the defensive missions assigned to it by the North Atlantic Treaty Organization within the limits laid down in the Special Agreement mentioned in Article 1, or equivalent fighting capacity.

ARTICLE 3

If at any time during the Annual Review recommendations are put forward, the effect of which would be to increase the level of forces above the limits specified in Articles 1 and 2, the acceptance by the country concerned of such recommended increases shall be subject to the unanimous approval of the High Contracting Parties to the present Protocol expressed either in the Council of Western European Union or in the North Atlantic Treaty Organization.

ARTICLE 4

In order that it may establish that the limits specified in Articles 1 and 2 are being observed, the Council of Western European Union will regularly receive information acquired as a result of inspections carried out by the Supreme Allied Commander Europe. Such information will be transmitted by a high-ranking officer designated for the purpose by the Supreme Allied Commander Europe.

ARTICLE 5

The strength and armaments of the internal defence and police forces on the mainland of Europe of the High Contracting Parties to the present Protocol shall be fixed by agreements within the Organization of Western European Union, having regard to their proper functions and needs and to their existing levels.

ARTICLE 6

Her Majesty the Queen of the United Kingdom of Great Britain and Northern Ireland will continue to maintain on the mainland of Europe, including Germany, the effective strength of the United Kingdom forces which are now assigned to the Supreme Allied Commander Europe, that is to say four divisions and the Second Tactical Air Force, or such other forces as the Supreme Allied Commander Europe regards as having equivalent fighting capacity. She undertakes not to withdraw these forces against the wishes of the majority of the High Contracting Parties who should take their decision in the knowledge of the views of the Supreme Allied Commander Europe. This undertaking shall not, however, bind her in the event of an acute overseas emergency. If the maintenance of the United Kingdom forces on the mainland of Europe throws at any time too great a strain on the external finances of the United Kingdom, she will, through Her Government in the United Kingdom of Great Britain and Northern Ireland, invite the North Atlantic Council to review the financial conditions on which the United Kingdom formations are maintained.

IN WITNESS whereof, the above-mentioned Plenipotentiaries have signed the present Protocol, being one of the Protocols listed in Article I of the Protocol Modifying and Completing the Treaty, and have affixed thereto their seals.

DONE at Paris this twenty-third day of October, 1954, in two texts, in the English and French languages, each text being equally authoritative, in a single copy, which shall remain deposited in the archives of the Belgian Government and of which certified copies shall be transmitted by that Government to each of the other Signatories.

Protocol No. III on the Control of Armaments

His Majesty the King of the Belgians, the President of the French Republic, President of the French Union, the President of the Federal Republic of Germany, the President of the Italian Republic, Her Royal Highness the Grand Duchess of Luxembourg, Her Majesty the Queen of the Netherlands, Her Majesty the Queen of the United Kingdom of Great Britain and Northern Ireland and of Her other Realms and Territories, Head of the Commonwealth, Signatories of the Protocol Modifying and Completing the Brussels Treaty,

Have appointed.....,

Have agreed as follows:

Part I—Armaments not to be manufactured

ARTICLE I

The High Contracting Parties, members of Western European Union, take note of and record their agreement with the Declaration of the Chancellor of the Federal Republic of Germany (made in London on 3rd October, 1954, and annexed hereto as Annex I) in which the Federal Republic of Germany undertook not to manufacture in its territory atomic, biological and chemical weapons. The types of armaments referred to in this Article are defined in Annex II. These armaments shall be more closely defined and the definitions brought up to date by the Council of Western European Union.

ARTICLE 2

The High Contracting Parties, members of Western European Union, also take note of and record their agreement with the undertaking given by the Chancellor of the Federal Republic of Germany in the same Declaration that certain further

types of armaments will not be manufactured in the territory of the Federal Republic of Germany, except that if in accordance with the needs of the armed forces a recommendation for an amendment to, or cancellation of, the content of the list of these armaments is made by the competent Supreme Commander of the North Atlantic Treaty Organization, and if the Government of the Federal Republic of Germany submits a request accordingly, such an amendment or cancellation may be made by a resolution of the Council of Western European Union passed by a two-thirds majority. The types of armaments referred to in this Article are listed in Annex III.

PART II—Arrangements to be controlled

ARTICLE 3

When the development of atomic, biological and chemical weapons in the territory on the mainland of Europe of the High Contracting Parties who have not given up the right to produce them has passed the experimental stage and effective production of them has started there, the level of stocks that the High Contracting Parties concerned will be allowed to hold on the mainland of Europe shall be decided by a majority vote of the Council of Western European Union.

ARTICLE 4

Without prejudice to the foregoing Articles, the types of armaments listed in Annex IV will be controlled to the extent and in the manner laid down in Protocol No. IV.

ARTICLE 5

The Council of Western European Union may vary the list in Annex IV by unanimous decision.

IN WITNESS whereof, the above-mentioned Plenipotentiaries have signed the present Protocol, being one of the Protocols listed in Article 1 of the Protocol Modifying and Completing the Treaty, and have affixed thereto their seals.

DONE at Paris on the twenty-third day of October 1954, in two texts, in the English and French languages, each text being equally authoritative, in a single copy, which shall remain deposited in the archives of the Belgian Government and of which certified copies shall be transmitted by that Government to each of the other Signatories.

Annex I

The Federal Chancellor declares:

that the Federal Republic undertakes not to manufacture in its territory any atomic weapons, chemical weapons or biological weapons, as detailed in paragraphs I, II and III of the attached list: ⁽¹⁾

that it undertakes further not to manufacture in its territory such weapons as those detailed in paragraphs IV, V, and VI of the attached list. ⁽²⁾ Any amendment to or cancellation of the substance of paragraphs IV, V and VI ⁽²⁾ can, on the request of the Federal Republic, be carried out by a resolution of the Brussels Council of Ministers by a two-thirds majority, if in accordance with the needs of the armed forces a request is made by the competent Supreme Commander of the North Atlantic Treaty Organization;

that the Federal Republic agrees to supervision by the competent authority of the Brussels Treaty Organization to ensure that these undertakings are observed.

⁽¹⁾ Reproduced in Annex II

⁽²⁾ Reproduced in Annex III

Annex II

This list comprises the weapons defined in paragraphs I to III and the factories earmarked solely for their production. All apparatus, parts, equipment, installations, substances and organisms which are used for civilian purposes or for scientific, medical and industrial research in the fields of pure and applied science shall be excluded from this definition.

I. Atomic Weapons

- (a) An atomic weapon is defined as any weapon which contains, or is designed to contain or utilize, nuclear fuel or radioactive isotopes and which, by explosion or other uncontrolled nuclear transformation of the nuclear fuel, or by radioactivity of the nuclear fuel or radioactive isotopes, is capable of mass destruction, mass injury or mass poisoning.
- (b) Furthermore, any part, device, assembly or material especially designed for, or primarily useful in, any weapon as set forth under paragraph (a), shall be deemed to be an atomic weapon.
- (c) Nuclear fuel as used in the preceding definition includes plutonium, Uranium 233, Uranium 235 (including Uranium 235 contained in Uranium enriched to over 2.1 per cent by weight of Uranium 235) and any other material capable of releasing substantial quantities of atomic energy through nuclear fission or fusion or other nuclear reaction of the material. The foregoing materials shall be considered to be nuclear fuel regardless of the chemical or physical form in which they exist.

II. Chemical Weapons

- (a) A chemical weapon is defined as any equipment or apparatus expressly designed to use, for military purposes, the asphyxiating, toxic, irritant, paralyzant, growth-regulating, anti-lubricating or catalysing properties of any chemical substance.
- (b) Subject to the provisions of paragraph (c), chemical substances, having such properties and capable of being used in the equipment or apparatus referred to in paragraph (a), shall be deemed to be included in this definition.
- (c) Such apparatus and such quantities of the chemical substances as are referred to in paragraphs (a) and (b) which do not exceed peaceful civilian requirements shall be deemed to be excluded from this definition.

III. Biological Weapons

- (a) A biological weapon is defined as any equipment or apparatus expressly designed to use, for military purposes, harmful insects or other living or dead organisms, or their toxic products.
- (b) Subject to the provisions of paragraph (c), insects, organisms and their toxic products of such nature and in such amounts as to make them capable of being used in the equipment or apparatus referred to in (a) shall be deemed to be included in this definition.
- (c) Such equipment or apparatus and such quantities of the insects, organisms and their toxic products as are referred to in paragraphs (a) and (b) which do not exceed peaceful civilian requirements shall be deemed to be excluded from the definition of biological weapons.

Annex III

This list comprises the weapons defined in paragraphs IV to VI and the factories earmarked solely for their production. All apparatus, parts, equipment, installations, substances and organisms, which are used for civilian purposes or for scientific medical and industrial research in the fields of pure and applied science shall be excluded from this definition.

IV. Long-range Missiles, Guided Missiles and Influence Mines

- (a) Subject to the provisions of paragraph (d), long-range missiles and guided missiles are defined as missiles such that the speed or direction of motion can be influenced after the instant of launching by a device or mechanism inside or outside the missile, including V-type weapons developed in the recent war and subsequent modifications thereof. Combustion is considered as a mechanism which may influence the speed.
- (b) Subject to the provisions of paragraph (d), influence mines are defined as naval mines which can be exploded automatically by influences which emanate solely from external sources, including influence mines developed in the recent war and subsequent modifications thereof.
- (c) Parts, devices or assemblies specially designed for use in or with the weapons referred to in paragraphs (a) and (b) shall be deemed to be included in this definition.
- (d) Proximity fuses, and short-range guided missiles for anti-aircraft defence with the following maximum characteristics are regarded as excluded from this definition:
 - Length: 2 metres;
 - Diameter, 30 centimetres;
 - Speed, 660 metres per second;
 - Ground range, 32 kilometres;
 - Weight of war-head, 22.5 kilogrammes.

V. Warships, with the exception of smaller ships for defence purposes

"Warships, with the exception of smaller ships for defence purposes are:

- (a) Warships of more than 3,000 tons displacement;
- (b) Submarines of more than 350 tons displacement;
- (c) All warships which are driven by means other than steam, Diesel or petrol engines or by gas turbine or by jet engines."

VI. Bomber aircraft for strategic purposes

Annex IV

List of types of armaments to be controlled

- 1. (a) Atomic
- (b) biological, and
- (c) chemical weapons.

In accordance with definitions to be approved by the Council of Western European Union as indicated in Article I of the present Protocol.

- 2. All guns, howitzers and mortars of any types and of any rôles of more than 90 mm. calibre including the following component for these weapons, viz., the elevating mass.
- 3. All guided missiles.
Definition: Guided missiles are such that the speed or direction or motion can be influenced after the instant of launching by a device or mechanism inside or outside the missile; these include V-type weapons developed in the recent war and modifications thereto. Combustion is considered as a mechanism which may influence the speed.
- 4. Other self-propelled missiles of a weight exceeding 15 kilogrammes in working order.
- 5. Mines of all types except anti-tank and anti-personnel mines.

6. Tanks, including the following component parts for these tanks, viz:
 - (a) the elevating mass;
 - (b) turret casting and/or plate assembly.
7. Other armoured fighting vehicles of an overall weight of more than 10 metric tons.
8. (a) Warships over 1,500 tons displacement;
 - (b) submarines;
 - (c) all warships powered by means other than steam, Diesel or petrol engines or gas turbines;
 - (d) small craft capable of a speed of over 30 knots, equipped with offensive armament.
9. Aircraft bombs of more than 1,000 kilogrammes.
10. Ammunition for the weapons described in paragraph 2 above.
11. (a) Complete military aircraft other than:
 - (i) all training aircraft except operational types used for training purposes;
 - (ii) military transport and communication aircraft;
 - (iii) helicopters;
 - (b) air frames, specifically and exclusively designed for military aircraft except those at (i), (ii) and (iii) above;
 - (c) Jet engines, turbo-propeller engines and rocket motors, when these are the principal motive power.

Protocol No. IV on the Agency of Western European Union for the Control of Armaments

His Majesty the King of the Belgians, the President of the French Republic, President of the French Union, the President of the Federal Republic of Germany, the President of the Italian Republic, Her Royal Highness the Grand Duchess of Luxembourg, Her Majesty the Queen of the Netherlands, Her Majesty the Queen of the United Kingdom of Great Britain and Northern Ireland and of Her other Realms and Territories, Head of the Commonwealth, Signatories of the Protocol Modifying and Completing the Brussels Treaty,

Having agreed in accordance with Article IV of the Protocol Modifying and Completing the Treaty, to establish an Agency for the Control of Armaments,

Have appointed...,

Have agreed as follows:

Part I—Constitution

ARTICLE 1

The Agency for the Control of Armaments (hereinafter referred to as "the Agency") shall be responsible to the Council of Western European Union (hereinafter referred to as "the Council"). It shall consist of a Director assisted by a Deputy Director, and supported by a staff drawn equitably from nationals of the High Contracting Parties, Members of Western European Union.

ARTICLE 2

The Director and his staff, including any officials who may be put at the disposal of the Agency by States Members, shall be subject to the general administrative control of the Secretary General of Western European Union.

ARTICLE 3

The Director shall be appointed by unanimous decision of the Council for a period of five years and shall not be eligible for re-appointment. He shall be responsible for the selection of his staff in accordance with the principle mentioned in Article 1 and in consultation with the individual States Members concerned. Before filling the posts of Deputy Director and of the Heads of Departments of the Agency, the Director shall obtain from the Council approval of the persons to be appointed.

ARTICLE 4

1. The Director shall submit to the Council, through the Secretary General, a plan for the organization of the Agency. The organization should provide for departments dealing respectively with:

- (a) the examination of statistical and budgetary information to be obtained from the members of Western European Union and from the appropriate NATO authorities;
- (b) inspections, test checks and visits;
- (c) administration.

2. The organization may be modified by decision of the Council.

ARTICLE 5

The costs of maintaining the Agency shall appear in the budget of Western European Union. The Director shall submit, through the Secretary General, to the Council an annual estimate of these costs.

ARTICLE 6

Officials of the Agency shall be bound by the full NATO code of security. They shall in no circumstances reveal information obtained in connexion with the execution of their official tasks except and only in the performance of their duties towards the Agency.

Part II—Functions

ARTICLE 7

1. The tasks of the Agency shall be:

- (a) to satisfy itself that the undertaking set out in Protocol No. III not to manufacture certain types of armaments mentioned in Annexes II and III to that Protocol are being observed;
- (b) to control, in accordance with Part III of the present Protocol, the level of stocks of armaments of the types mentioned in Annex IV to Protocol No. III held by each member of Western European Union on the mainland of Europe. This control shall extend to production and imports to the extent required to make the control of stocks effective.

2. For the purposes mentioned in paragraph 1 of this Article, the Agency shall:

- (a) scrutinise statistical and budgetary information supplied by members of Western European Union and by the NATO authorities;
- (b) undertake on the mainland of Europe test checks, visits and inspections at production plants, depots and forces (other than depots or forces under NATO authority);
- (c) report to the Council.

ARTICLE 8

With respect to forces and depots under NATO authority, test checks, visits and inspections shall be undertaken by the appropriate authorities of the North Atlantic Treaty Organization. In the case of the forces and depots under the

Supreme Allied Commander Europe, the Agency shall receive notification of the information supplied to the Council through medium of the high-ranking officer to be designated by him.

ARTICLE 9

The operations of the Agency shall be confined to the mainland of Europe.

ARTICLE 10

The Agency shall direct its attention to the production of end-items and components listed in Annexes II, III and IV of Protocol No. III, and not to processes. It shall ensure that materials and products destined for civilian use are excluded from its operations.

ARTICLE 11

Inspections by the Agency shall not be of a routine character, but shall be in the nature of tests carried out at irregular intervals. Such inspections shall be conducted in a spirit of harmony and co-operation. The Director shall propose to the Council detailed regulations for the conduct of the inspections providing, *inter alia*, for due process of law in respect of private interests.

ARTICLE 12

For their test checks, visits and inspections the members of the Agency shall be accorded free access on demand to plants and depots, and the relevant accounts and documents shall be made available to them. The Agency and national authorities shall co-operate in such checks and inspections, and in particular national authorities may, at their own request, take part in them.

Part III—Levels of Stocks of Armaments

ARTICLE 13

1. Each member of Western European Union shall, in respect of its forces under NATO authority stationed on the mainland of Europe, furnish annually to the Agency statements of:

- (a) the total quantities of armaments of the types mentioned in Annex IV to Protocol No. III required in relation to its forces;
- (b) the quantities of such armaments currently held at the beginning of the control years;
- (c) the programmes for attaining the total quantities mentioned in (a) by;
 - (i) manufacture in its own territory;
 - (ii) purchase from another country;
 - (iii) end-item aid from another country.

2. Such statements shall also be furnished by each member of Western European Union in respect of its internal defence and police forces and its other forces under national control stationed on the mainland of Europe including a statement of stocks held there for its forces stationed overseas.

3. The statements shall be correlated with the relevant submissions to the North Atlantic Treaty Organization.

ARTICLE 14

As regards the forces under NATO authority, the Agency shall verify in consultation with the appropriate NATO authorities that the total quantities stated under Article 13 are consistent with the quantities recognized as required by the units of the

members concerned under NATO authority, and with the conclusions and data recorded in the documents approved by the North Atlantic Council in connexion with the NATO Annual Review.

ARTICLE 15

As regards internal defence and police forces, the total quantities of their armaments to be accepted as appropriate by the Agency shall be those notified by the members; provided that they remain within the limits laid down in the further agreements to be concluded by the members of Western European Union on the strength and armaments of the internal defence and police forces on the mainland of Europe.

ARTICLE 16

As regards other forces remaining under national control, the total quantities of their armaments to be accepted as appropriate by the Agency shall be those notified to the Agency by the members.

ARTICLE 17

The figures furnished by members for the total quantities of armaments under Articles 15 and 16 shall correspond to the size and mission of the forces concerned.

ARTICLE 18

The provisions of Articles 14 and 17 shall not apply to the High Contracting Parties and to the categories of weapons covered in Article 3 of Protocol No. III. Stocks of the weapons in question shall be determined in conformity with the procedure laid down in that Article and shall be notified to the Agency by the Council of the Western European Union.

ARTICLE 19

The figures obtained by the Agency under Articles 14, 15, 16 and 18 shall be reported to the Council as appropriate levels for the current control year for the members of Western European Union. Any discrepancies between the figures stated under Article 13, paragraph 1, and the quantities recognized under Article 14 will also be reported.

ARTICLE 20

1. The Agency shall immediately report to the Council if inspection, or information from other sources, reveals:

- (a) the manufacture of armaments of a type which the member concerned has undertaken not to manufacture;
- (b) the existence of stocks of armaments in excess of the figures and quantities ascertained in accordance with Articles 19 and 22.

2. If the Council is satisfied that the infraction reported by the Agency is not of major importance and can be remedied by prompt local action, it will so inform the Agency and the member concerned, who will take the necessary steps.

3. In the case of other infractions, the Council will invite the member concerned to provide the necessary explanation within a period to be determined by the Council; if this explanation is considered unsatisfactory, the Council will take the measures which it deems necessary in accordance with a procedure to be determined.

4. Decisions of the Council under this Article will be taken by majority vote.

ARTICLE 21

Each member shall notify to the Agency the names and locations of the depots on the mainland of Europe containing armaments subject to control and of the plants on the mainland of Europe manufacturing such armaments, or, even though not in operation, specifically intended for the manufacture of such armaments.

ARTICLE 22

Each member of Western European Union shall keep the Agency informed of the quantities of armaments of the types mentioned in Annex IV to Protocol No. III, which are to be exported from its territory on the mainland of Europe. The Agency shall be entitled to satisfy itself that the armaments concerned are in fact exported. If the level of stocks of any item subject to control appears abnormal, the Agency shall further be entitled to enquire into the orders for export.

ARTICLE 23

The Council shall transmit to the Agency information received from the Governments of the United States of America and Canada respecting military aid to be furnished to the forces on the mainland of Europe of members of Western European Union.

IN WITNESS whereof, the above-mentioned Plenipotentiaries have signed the present Protocol, being one of the Protocols listed in Article I of the Protocol Modifying and Completing the Treaty, and have affixed thereto their seals.

DONE at Paris this twenty-third day of October 1954, in two texts, in the English and French languages, each text being equally authoritative, in a single copy, which shall remain deposited in the archives of the Belgian Government and of which certified copies shall be transmitted by that Government to each of the other Signatories.

3. Letters with reference to the jurisdiction of the International Court of Justice from, respectively, the Governments of the Federal Republic and of Italy to the other Governments signatory of the Protocol Modifying and Completing the Brussels Treaty

I have the honour to make the following communication to Your Excellency in order to place on record the undertaking of the Federal/Italian Government regarding the application and interpretation of Article X (formerly Article VIII), of the Brussels Treaty.

The Federal/Italian Government undertake, before the Protocol modifying and completing the Brussels Treaty and the related Protocols and their Annexes are ratified by the High Contracting Parties, to declare their acceptance of the compulsory jurisdiction of the International Court of Justice in accordance with Article X (formerly Article VIII) of the Treaty, having made known to the Parties the reservations accompanying their acceptance.

The Federal/Italian Government understand that, in the view of the other High Contracting Parties, paragraph 5 of Article X (formerly Article VIII) of the Treaty leaves the way open for concluding agreements on other means of settling disputes between Them, and that the undertaking in question shall in no way prejudice the possibility of opening discussions immediately with a view to establishing other methods of settling possible disputes in the application or interpretation of the Treaty.

[in the Federal Government's letter only]

Moreover, in the opinion of the Federal Government, the widening of the Brussels Treaty may give rise to a number of doubts and disputes as to the interpretation and application of the Treaty, the Protocols and their Annexes, which may not be of fundamental importance but mainly of a technical nature. The Federal Government consider that it is desirable to establish another, simpler procedure for the settlement of such matters.

The Federal Government therefore propose that the High Contracting Parties should discuss the problems set out above at once, with a view to reaching agreement on an appropriate procedure.

[In letters from both Federal and Italian Government]

I should be grateful if Your Excellency would confirm that [the Government concerned] agree with this letter. The exchange of letters thus effected will be considered as an Annex to the Protocol modifying and completing the Brussels Treaty, within the meaning of Article IV paragraph 1, of the said Protocol.

Reply to the Letters from the Governments of the Federal Republic and of Italy to the Other Governments Signatory of the Protocol Modifying and Completing the Brussels Treaty

I have the honour to acknowledge receipt of Your Excellency's communication of (date)..... and to state that [the Government concerned] have noted with satisfaction that the Government of the Federal Republic of Germany/the Italian Government undertake to declare their acceptance of the compulsory jurisdiction of the International Court of Justice in accordance with Article X (formerly Article VIII) of the Brussels Treaty, having made known to the High Contracting Parties the reservations accompanying their acceptance.

I confirm that [the Government concerned] interpret paragraph 5 of Article X (formerly Article VIII) of the Treaty as stated in the third paragraphs of Your Excellency's communication.

[In the reply to the Federal Government's letter only]

With regard to the fourth and fifth paragraphs of Your Excellency's communication, [the Government concerned] are in agreement with the proposal of the Federal Government that the High Contracting Parties should discuss at once the question of establishing an appropriate procedure for the settlement of the possible disputes to which the Federal Government draw attention.

[In the reply to both Governments]

They also agree to consider this exchange of letters as an Annex to the Protocol modifying and completing the Brussels Treaty within the meaning of Article IV, paragraph 1 of the said Protocol.

4. Resolution on Production and Standardization of Armaments (Adopted by the Nine-Power Conference on 21st October, 1954)

The Governments of the Kingdom of Belgium, the French Republic, the Federal Republic of Germany, the Italian Republic, the Grand Duchy of Luxembourg, the Kingdom of the Netherlands, and the United Kingdom of Great Britain and Northern Ireland,

Anxious to increase the effectiveness of their common Defence forces to the maximum,

Desirous of ensuring the best possible use of their available armament credits by means of the rational organization of production,

Noting the importance in this connection of standardising weapons and weapon components,

Desirous of facilitating any agreement to this end between all or certain of the Seven Powers:

(1) Recall the decision taken at the London Conference to set up a Working Party to study the draft directives submitted by the French Government on 1st October 1954 and such other documents as might subsequently be submitted on the problem of the production and standardization of armaments.

(2) Agree to convene a Working Group in Paris on the 17th January 1955 of the Representatives of Belgium, France, Italy, Luxembourg, the Netherlands, the Federal Republic of Germany and the United Kingdom, to study the draft directives and other documents referred to in the foregoing paragraph, with a view to submitting proposals to the Council of Western European Union when it comes into being.

D—NORTH ATLANTIC COUNCIL

1 Resolution to Implement Section IV of the Final Act of the London Conference.

THE NORTH ATLANTIC COUNCIL:

1. RECOGNISING the necessity of strengthening the structure of the North Atlantic Treaty Organization and of reinforcing the machinery for the collective defence of Europe, and desirous of specifying the conditions governing joint examination of the defence effort of member countries.

2. RECALLS that:

(a) the resources which member nations intend to devote to their defence effort as well as the level, composition and quality of the forces which the member nations are contributing to the defence of the North Atlantic area are each year subject to collective examination in the NATO Annual Review for the purpose of reaching agreement on force goals, taking into account expected mutual aid;

(b) the defence expenditures incurred by the member nations and the extent to which the recommendations emerging from the Annual Review have been carried out are the subject of periodical review during the year.

3. AGREES with the terms of the Agreement on Forces of Western European Union; and that with respect to the forces which the members of Western European Union will place under NATO Command on the mainland of Europe and for which maximum figures have been established in that Agreement, if at any time during the NATO Annual Review recommendations are put forward, the effect of which would be to increase the level of forces above the limits established in this Agreement, the acceptance by the country concerned of such recommended increases shall be subject to unanimous approval by the members of Western European Union, expressed either in the Council of Western European Union or in the North Atlantic Treaty Organization.

4. DECIDES that all forces of member nations stationed in the area of the Allied Command Europe shall be placed under the authority of the Supreme Allied Commander Europe or other appropriate NATO Command and under the direction of the NATO military authorities with the exception of those forces intended for the defence of overseas territories and other forces which the North Atlantic Treaty Organization has recognized or will recognize as suitable to remain under national command.

5. INVITES member nations to make an initial report for consideration and recognition by the Council on those forces which they plan to maintain within the area of Allied Command Europe for the common defence, but not to place under the authority of the North Atlantic Treaty Organization, taking into account the provisions of relevant NATO directives bearing on that subject; the initial report will include a broad statement of the reason for which the above forces are not so placed. Thereafter, if any changes are proposed, the North Atlantic Council action on the NATO Annual Review will constitute recognition as to the suitability and size of forces to be placed under the authority of the appropriate NATO Command and those to be retained under national command.

6. NOTES that the agreements concluded within the framework of the Organization of Western European Union on the internal defence and police forces which the members of that Organization will maintain on the mainland shall be notified to the North Atlantic Council.

7. AGREES, in the interest of most effective collective defence, that in respect of combat forces in the area of Allied Command Europe and under the Supreme Allied Commander Europe;

(a) all deployments shall be in accordance with NATO strategy;

(b) the location of forces in accordance with NATO operational plans shall be determined by the Supreme Allied Commander Europe after consultation and agreement with the national authorities concerned;

(c) forces under the Supreme Allied Commander Europe and within the area of Allied Command Europe shall not be re-deployed or used operationally within that area without the consent of the Supreme Allied Commander Europe, subject to political guidance furnished by the North Atlantic Council, when appropriate, through normal channels.

8. DECIDES THAT:

(a) integration of forces at Army Group and Tactical Air Force level shall be maintained;

(b) in view of the powerful combat support units and logistic support organization at Army level, integration at that level and associated Air Force level will be the rule, wherever formations of several nationalities are operating in the same area and on a common task, provided there are no overriding objections from the point of view of military effectiveness;

(c) wherever military efficiency permits, in light of the size, location and logistic support of forces, integration at lower levels, both in the land and air forces, shall be achieved to the maximum extent possible;

(d) proposals to the North Atlantic Council, indicating any increases in commonly financed items of expenditure, such as infrastructure which might be entailed by the adoption of such measures, should be submitted by the NATO military authorities.

9. AGREES that, in order to improve the capability of the Supreme Allied Commander Europe to discharge his responsibilities in the defence of Allied Command Europe, his responsibilities and powers for the logistic support of the forces placed under his authority shall be extended.

10. CONSIDERS that these increased responsibilities and powers should include authority:

(a) to establish, in consultation with the national authorities concerned, requirements for the provision of logistic resources*;

(b) to determine, in agreement with the national authorities concerned, their geographic distribution;

(c) to establish, in consultation with these authorities, logistic priorities for the raising, equipping and maintenance of units;

(d) to direct the utilisation, for meeting his requirements, of those portions of the logistic support system made available to him by the appropriate authorities;

(e) to co-ordinate and supervise the use, for logistical purposes, of NATO common infrastructure facilities and of those national facilities made available to him by the national authorities.

11. AGREES that, in order to ensure that adequate information is obtained and made available to the appropriate authorities about the forces placed under the Supreme Allied Commander Europe including reserve formations and their logistic support within the area of Allied Command Europe, the Supreme Allied

*By logistic resources should be understood all the matériel, supplies, installations and parts thereof necessary for the prolonged conduct of combat operations.

Commander Europe shall be granted increased authority to call for reports regarding the level and effectiveness of such forces and their armaments, equipment and supplies as well as the organization and location of their logistic arrangements. He shall also make field inspections within that area as necessary.

12. INVITES nations to submit to the Supreme Allied Commander Europe such reports to this end as he may call for from time to time; and to assist inspection within the area of Allied Command Europe by the Supreme Allied Commander Europe of these forces and their logistic support arrangements as necessary.

13. CONFIRMS that the powers exercised by the Supreme Allied Commander Europe in peacetime extend not only to the organization into an effective integrated force of the forces placed under him but also to their training; that in this field, the Supreme Allied Commander Europe has direct control over the higher training of all national forces assigned to his command in peacetime; and that he should receive facilities from member nations to inspect the training of those cadre and other forces within the area of Allied Command Europe earmarked for that Command.

14. DIRECTS the NATO military authorities to arrange for the designation by the Supreme Allied Commander Europe of a high-ranking officer of his Command who will be authorised to transmit regularly to the Council of Western European Union information relating to the forces of the members of Western European Union on the mainland of Europe acquired as a result of the reports and inspections mentioned in paragraphs 11 and 12 in order to enable that Council to establish that the limits laid down in the special agreement mentioned in paragraph 3 above are being observed.

15. AGREES that the expression "the area of Allied Command Europe" as used throughout this resolution shall not include North Africa; and that this Resolution does not alter the present status of the United Kingdom and United States forces in the Mediterranean.

16. DIRECTS the NATO Military Committee to initiate the necessary changes in the directives to give effect to the above policies and objectives of the North Atlantic Council.

2. Resolution of Association

THE NORTH ATLANTIC COUNCIL:

WELCOMING the declaration made in London by the Government of the Federal Republic of Germany on 3rd October, 1954 (Annex A), and the related declaration made on the same occasion by the Governments of the United States of America, the United Kingdom of Great Britain and Northern Ireland and the French Republic (Annex B),

NOTES WITH SATISFACTION that the representatives of the other Parties to the North Atlantic Treaty have, on behalf of their Governments, today associated themselves with the aforesaid declaration of the Three Powers.

Declaration by the Government of the Federal Republic of Germany

The German Federal Republic has agreed to conduct its policy in accordance with the principles of the Charter of the United Nations and accepts the obligations set forth in Article 2 of the Charter.

Upon her accession to the North Atlantic Treaty and the Brussels Treaty, the German Federal Republic declares that she will refrain from any action inconsistent with the strictly defensive character of the two treaties. In particular the German

Federal Republic undertakes never to have recourse to force to achieve the reunification of Germany or the modification of the present boundaries of the German Federal Republic, and to resolve by peaceful means any disputes which may arise between the Federal Republic and other States.

Declaration by the Governments of United States of America, United Kingdom and France

The Governments of the United States of America, the United Kingdom of Great Britain and Northern Ireland and the French Republic,

Being resolved to devote their efforts to the strengthening of peace in accordance with the Charter of the United Nations and in particular with the obligations set forth in Article 2 of the Charter:

- (i) to settle their international disputes by peaceful means in such a manner that international peace and security and justice are not endangered;
- (ii) to refrain in their international relations from the threat or use of force against the territorial integrity or political independence of any State, or in any other manner inconsistent with the purposes of the United Nations;
- (iii) to give the United Nations every assistance in any action it takes in accordance with the Charter, and to refrain from giving assistance to any State against which the United Nations take preventive or enforcement action;
- (iv) to ensure that States which are not Members of the United Nations act in accordance with the principles of the Charter so far as may be necessary for the maintenance of international peace and security.

Having regard to the purely defensive character of the Atlantic Alliance which is manifest in the North Atlantic Treaty, wherein they reaffirm their faith in the purposes and principles of the Charter of the United Nations and their desire to live in peace with all peoples and all Governments, and undertake to settle their international disputes by peaceful means in accordance with the principles of the Charter and to refrain, in accordance with those principles, from the threat or use of force in their international relations,

Take note that the German Federal Republic has by a Declaration dated 3rd October accepted the obligations set forth in Article 2 of the Charter of the United Nations and has undertaken never to have recourse to force to achieve the reunification of Germany or the modification of the present boundaries of the German Federal Republic, and to resolve by peaceful means any disputes which may arise between the Federal Republic and other States;

DECLARE THAT:

1. They consider the Government of the Federal Republic as the only German Government freely and legitimately constituted and therefore entitled to speak for Germany as the representative of the German people in international affairs.

2. In their relations with the Federal Republic they will follow the principles set out in Article 2 of the United Nations Charter.

3. A peace settlement for the whole of Germany, freely negotiated between Germany and her former enemies, which should lay the foundation of a lasting peace, remains an essential aim of their policy. The final determination of the boundaries of Germany must await such a settlement.

4. The achievement through peaceful means of a fully free and unified Germany remains a fundamental goal of their policy.

5. The security and welfare of Berlin and the maintenance of the position of the Three Powers there are regarded by the Three Powers as essential elements of the peace of the free world in the present international situation. Accordingly

they will maintain armed forces within the territory of Berlin as long as their responsibilities require it. They therefore reaffirm that they will treat any attack against Berlin from any quarter as an attack upon their forces and themselves.

6. They will regard as a threat to their own peace and safety any recourse to force which in violation of the principles of the United Nations Charter threatens the integrity and unity of the Atlantic Alliance or its defensive purposes. In the event of any such action, the three Governments, for their part, will consider the offending Government as having forfeited its rights to any guarantee and any military assistance provided for in the North Atlantic Treaty and its protocols. They will act in accordance with Article 4 of the North Atlantic Treaty with a view to taking other measures which may be appropriate.

7. They will invite the association of other member States of the North Atlantic Treaty Organization with this Declaration.

3. Protocol to the North Atlantic Treaty on the Accession of the Federal Republic of Germany

The Parties to the North Atlantic Treaty signed at Washington on 4th April, 1949,

Being satisfied that the security of the North Atlantic area will be enhanced by the accession of the Federal Republic of Germany to that Treaty, and

Having noted that the Federal Republic of Germany has, by a declaration dated 3rd October, 1954, accepted the obligations set forth in Article 2 of the Charter of the United Nations and has undertaken upon its accession to the North Atlantic Treaty to refrain from any action inconsistent with the strictly defensive character of that Treaty, and

Having further noted that all member governments have associated themselves with the declaration also made on 3rd October, 1954, by the Governments of the United States of America, the United Kingdom of Great Britain and Northern Ireland and the French Republic in connection with the aforesaid declaration of the Federal Republic of Germany,

Agree as follows:

ARTICLE I

Upon the entry into force of the present Protocol, the Government of the United States of America shall on behalf of all the Parties communicate to the Government of the Federal Republic of Germany an invitation to accede to the North Atlantic Treaty. Thereafter the Federal Republic of Germany shall become a Party to that Treaty on the date when it deposits its instrument of accession with the Government of the United States of America in accordance with Article 10 of the Treaty.

ARTICLE II

The present Protocol shall enter into force, when (a) each of the Parties to the North Atlantic Treaty has notified to the Government of the United States of America its acceptance thereof, (b) all instruments of ratification of the Protocol modifying and completing the Brussels Treaty have been deposited with the Belgian Government, and (c) all instruments of ratification or approval of the Convention on the Presence of Foreign Forces in the Federal Republic of Germany have been deposited with the Government of the Federal Republic of Germany. The Government of the United States of America shall inform the other Parties to the North Atlantic Treaty of the date of the receipt of each notification of acceptance of the present Protocol and of the date of the entry into force of the present Protocol.

ARTICLE III

The present Protocol, of which the English and French texts are equally authentic, shall be deposited in the Archives of the Government of the United States of America. Duly certified copies thereof shall be transmitted by that Government to the Governments of the other Parties to the North Atlantic Treaty.

In witness whereof, the undersigned Representatives, duly authorised thereto by their respective Governments, have signed the present Protocol.

Signed at Paris the 23rd day of October, 1954:

4 Resolution on Results of the Four and Nine Power Meetings (Adopted by the North Atlantic Council on 22nd October 1954)

THE NORTH ATLANTIC COUNCIL:

RECOGNISING that all the arrangements arising out of the London Conference form part of one general settlement which is directly or indirectly of concern to all the NATO Powers and has therefore been submitted to the Council for information or decision;

HAVE LEARNT with satisfaction of the arrangements agreed between the Governments of France, the United Kingdom and the United States of America and of the Federal Republic of Germany for the termination of the occupation régime in the Federal Republic as set forth in the Protocol communicated to the Council;

WELCOME the decision of the Brussels Treaty Powers to invite the Federal Republic of Germany and Italy to accede to the Brussels Treaty as modified and completed by the Protocols and other documents communicated to the Council, and hereby record their agreement with the provisions of those Protocols and documents insofar as they concern action by the North Atlantic Treaty Organization;

WELCOME the extension of the Brussels Treaty as an important step toward the achievement of European unity; and express confidence that there will be the closest co-operation between the Western European Union and the North Atlantic Treaty Organization which remains the foundation of the security and progress of the Atlantic Community.

TAKE NOTE with satisfaction of the statements made on 29th September 1954 in London by the United States Secretary of State and the Canadian Secretary of State for External Affairs, and of the declaration by the Foreign Secretary of the United Kingdom concerning the maintenance of United Kingdom forces on the continent of Europe;

Finally,

RECORD their deep satisfaction at the happy conclusion of all the above arrangements which together constitute a decisive step in fortifying the North Atlantic Alliance and uniting the Free World.

FINAL ACT OF THE LONDON CONFERENCE (OCTOBER 3rd)

Following is the text of the "final act" of the London conference:

"The conference of the nine Powers, Belgium, Canada, France, the German Federal Republic, Italy, Luxembourg, the Netherlands, the United Kingdom, and the United States, met in London from Tuesday, September 28th, to Sunday, October 3rd. It dealt with the most important issues facing the western world—security and European integration within the framework of a developing Atlantic community dedicated to peace and freedom. In this connection the conference considered how to assure the full association of the German Federal Republic with the west and the German defence contribution.

"Belgium was represented by M. Spaak, Canada by Mr. Pearson, France by M. Mendès-France, the German Federal Republic by Dr. Adenauer, Italy by Professor Martino, Luxembourg by M. Bech, the Netherlands by Dr. Beyen, the United Kingdom by Mr. Eden, and the United States by Mr. Dulles.

"All the decisions of the conference formed part of one general settlement which is directly or indirectly of concern to all the North Atlantic Treaty Organization Powers and will therefore be submitted to the North Atlantic Council for information or decision.

I. Germany

"The Governments of France, the United Kingdom, and the United States declare that their policy is to end the occupation régime in the Federal Republic as soon as possible, to revoke the Occupation Statute, and to abolish the Allied High Commission. The three Governments will continue to discharge certain responsibilities in Germany arising out of the international situation.

"It is intended to conclude, and to bring into force as soon as the necessary parliamentary procedures have been completed, the appropriate instruments for these purposes. General agreement has already been reached on the content of these instruments, and representatives of the four Governments will meet in the very near future to complete the final texts. The agreed arrangements may be put into effect either before or simultaneously with the arrangements for the German defence contribution.

"As these arrangements will take a little time to complete, the three Governments have in the meantime issued the following declaration of intent:—

"Recognizing that a great country can no longer be deprived of the rights properly belonging to a free and democratic people, and desiring to associate the Federal Republic of Germany on a footing of equality with their efforts for peace and security, the Governments of France, the United Kingdom, the United States of America desire to end the occupation régime as soon as possible.

"The fulfilment of this policy calls for the settlement of problems of detail in order to liquidate the past and to prepare for the future, and requires the completion of appropriate parliamentary procedures.

"In the meantime the three Governments are instructing their High Commissioners to act forthwith in accordance with the spirit of the above policy. In particular, the High Commissioners will not use the powers which are to be relinquished unless in agreement with the

Federal Government, except in the fields of disarmament and demilitarization and in cases where the Federal Government has not been able for legal reasons to take the action or assume the obligations contemplated in the agreed arrangement.

II. *Brussels Treaty*

"The Brussels Treaty will be strengthened and extended to make it a more effective focus of European integration. For this purpose the following arrangements have been agreed upon:—

(a) The German Federal Republic and Italy will be invited to accede to the treaty, suitably modified to emphasize the objective of European unity, and they have declared themselves ready to do so. The system of mutual automatic assistance in case of attack will thus be extended to the German Federal Republic and Italy.

(b) The structure of the Brussels Treaty will be reinforced. In particular the consultative council provided in the treaty will become a council with powers of decision.

(c) The activities of the Brussels Treaty organization will be extended to include further important tasks as follows:—

The size and general characteristics of the German defence contribution will conform to the contribution fixed for the European Defence Community.

The maximum defence contribution to NATO of all members of the Brussels Treaty organization will be determined by a special agreement fixing levels which can be increased only by unanimous consent.

The strength and armaments of the internal defence forces and the police on the Continent of the countries members of the Brussels Treaty organization will be fixed by agreements within that organization having regard to their proper function and to existing levels and needs."

Armament Control: Purpose of New Agency

"The Brussels Treaty Powers agree to set up, as part of the Brussels Treaty organization, an agency for the control of armaments on the Continent of Europe of the continental members of the Brussels Treaty organization. The detailed provisions are as follows:—

(1) The functions of the agency shall be:

(a) to ensure that the prohibition of the manufacture of certain types of armaments as agreed between the Brussels Powers is being observed.

(b) To control the level of stocks held by each country on the Continent of the types of armaments mentioned in the following paragraph. This control shall extend to production and imports to the extent required to make the control of stocks effective.

(2) The types of armament to be controlled under 1(b) above shall be:

(a) weapons in categories I, II and III listed in Annex II to Article 107 of the EDC Treaty.

(b) weapons in the other categories listed in Annex II to Article 107 of the EDC Treaty.

(c) A list of major weapons taken from Annex I to the same Article to be established hereafter by an expert working group.

Measures will be taken to exclude from control materials and products in the above lists for civil use.

(Weapons in categories I, II and III listed in Annex II to Article 107 of the EDC Treaty are atomic weapons, chemical weapons, and biological weapons. Weapons in other categories listed in this annex are long-range missiles, guided missiles, and influence mines; naval vessels other than minor

defensive craft; and military aircraft. Annex I to Article 107 of the EDC Treaty divides conventional and unconventional armaments into a number of categories.)

(3) As regards the weapons referred under paragraph (2) (a) above, when the countries which have not given up the right to produce them have passed the experimental stage and start effective production, the level of stocks that they will be allowed to hold on the Continent shall be decided by the Brussels Treaty council by a majority vote.

(4) The continental members of the Brussels Treaty organization agree not to build up stocks or to produce the armaments mentioned in paragraph 2 (b) and (c) beyond the limits required

(a) for the equipment of their forces, taking into account any imports including external aid, and

(b) for export.

(5) The requirements for their NATO forces shall be established on the basis of the results of the annual review and the recommendations of the NATO military authorities.

(6) For forces remaining under national control, the level of stocks must correspond to the size and mission of those forces. That level shall be notified to the agency.

(7) All importations or exportations of the controlled arms will be notified to the agency.

(8) The agency will operate through the examination and collation of statistical and budgetary data. It will undertake test checks and will make such visits and inspections as may be required to fulfil its functions as defined in paragraph 2 above.

(9) The basic rules of procedure for the agency shall be laid down in a protocol to the Brussels Treaty.

(10) If the agency finds that the prohibitions are not being observed, or that the appropriate level of stocks is being exceeded, it will so inform the Brussels council.

(11) The agency will report and be responsible to the Brussels council, which will take its decisions by a majority vote on questions submitted by the agency.

(12) The Brussels council will make an annual report on its activities concerning the control of armaments to the delegates of the Brussels Treaty Powers and to the Consultative Assembly of the Council of Europe.

(13) The Governments of the United States and Canada will notify the Brussels Treaty organization of the military aid to be distributed to the continental members of that organization. The organization may make written observations.

(14) The Brussels council will establish a working group in order to study the draft directive presented by the French Government and any other papers which may be submitted on the subject of armaments production and standardization."

German Declaration—Voluntary Limitation

(15) The Brussels Treaty Powers have taken note of the following declaration of the Chancellor of the Federal Republic of Germany and record their agreement with it: The Federal Chancellor declares:—

"that the Federal Republic undertakes not to manufacture in its territory any atomic weapons, chemical weapons, or biological weapons, as detailed in paragraphs I, II and III of the attached list;

"that it undertakes further not to manufacture in its territory such weapons as those detailed in paragraphs IV, V and VI of the attached list. Any amendment to or cancellation of the substance of paragraphs IV, V and VI can, on the

request of the Federal Republic, be carried out by a resolution of the Brussels Council of Ministers by a two-thirds majority, if in accordance with the needs of the armed forces a request is made by the competent Supreme Commander of NATO;

"that the Federal Republic agrees to supervision by the competent authority of the Brussels Treaty organization to ensure that these undertakings are observed."

Federal Chancellor's List—Declaration by the Powers

"The following list is appended to the declaration by the Federal Chancellor. It comprises the weapons defined in paragraphs I to VI and the factories earmarked solely for their production. All apparatus, parts, equipment, installations, substances, and organisms which are used for civilian purposes or for scientific, medical, and industrial research in the fields of pure and applied science shall be excluded from this definition.

I. Atomic weapons.

Text as in Annex II paragraph I to Article 107 of the EDC Treaty with the deletion of (c).

II. Chemical weapons.

III. Biological weapons.

IV. Long-distance missiles, guided missiles, magnetic and influence mines.

Texts as in Annex II paragraphs II, III, and IV to Article 107 of the EDC Treaty.

V. Warships, with the exception of smaller ships for defence purposes. These are:—

- (a) Warships of more than 3,000 tons displacement. (b) Submarines of more than 350 tons displacement. (c) All warships which are driven by means other than steam, diesel, or petrol engines or by gas turbines or by jet engines.

VI. Bomber aircraft for strategic purposes.—The closest possible co-operation with NATO shall be established in all fields."

III. *United States, United Kingdom, and Canadian Assurances*

The United States Secretary of State set forth the willingness of the United States to continue its support for European unity, in accordance with the following statement.

"If, using the Brussels Treaty as a nucleus, it is possible to find in this new pattern a continuing hope of unity among the countries of Europe that are represented here, and if the hopes that were tied into the EDC treaty can reasonably be transferred into the arrangements which will be the outgrowth of this meeting, then I would certainly be disposed to recommend to the President that he should renew the assurance offered last spring in connection with the EDC treaty to the effect that the United States will continue to maintain in Europe, including Germany, such units of its armed forces as may be necessary and appropriate to contribute its fair share of the forces needed for the joint defence of the North Atlantic area while a threat to the area exists, and will continue to deploy such forces in accordance with agreed North Atlantic strategy for the defence of this area."

British Statement

The United Kingdom confirmed its active participation in the Brussels Treaty organization and gave the following assurance about the maintenance of United Kingdom forces on the Continent of Europe.

"The United Kingdom will continue to maintain on the mainland of Europe, including Germany, the effective strength of the United Kingdom forces now assigned to the Supreme Allied Commander in Europe, four divisions and the Tactical Air Force, or whatever the Supreme Allied Commander regards as equivalent fighting capacity. The United Kingdom undertakes not to withdraw those forces against the wishes of the majority of the Brussels Treaty Powers, who should take their decision in the knowledge of the views of the Supreme Allied Commander in Europe.

"This undertaking would be subject to the understanding that an acute overseas emergency might oblige Her Majesty's Government to omit this procedure.

"If the maintenance of United Kingdom forces on the mainland of Europe throws at any time too heavy a strain on the external finances of the United Kingdom, the United Kingdom will invite the North Atlantic Council to review the financial conditions on which the formations are maintained."

Canadian Affirmation

Canada reaffirmed in the following statement its resolve to discharge the continuing obligations arising out of its membership of NATO and its support of the objective of European unity.

"As far as we are concerned, the North Atlantic Treaty Organization remains the focal point of our participation in collective defence and of our hope for the development of closer co-operation with the other peoples of the Atlantic community. As such, it remains a foundation of Canadian foreign policy. While we emphasize, then, our belief in the North Atlantic Treaty Organization, we welcome the proposed extension of the Brussels Treaty. We shall look forward to a growing relationship, within the framework of NATO, with the new Brussels Treaty organization, composed of countries with whom we are already bound by such close ties."

German Membership of NATO—Powers' Recommendation

IV. NATO

"The Powers present at the conference which are members of NATO agreed to recommend at the next ministerial meeting of the North Atlantic Council that the Federal Republic of Germany should forthwith be invited to become a member.

"They further agreed to recommend to NATO that its machinery be reinforced in the following respects:

- (a) All forces of NATO countries stationed on the Continent of Europe shall be placed under the authority of the Supreme Allied Commander in Europe, with the exception of those which NATO has recognized, or will recognize, as suitable to remain under national command.
- (b) Forces placed under the Supreme Allied Commander, Europe, on the Continent shall be deployed in accordance with NATO strategy.
- (c) The location of such forces shall be determined by the Supreme Allied Commander, Europe, after consultation and agreement with the national authorities concerned.
- (d) Such forces shall not be redeployed on the Continent or used operationally on the Continent without his consent, subject to appropriate political guidance from the North Atlantic Council.

- (e) Forces placed under the Supreme Allied Commander, Europe, on the Continent shall be integrated as far as possible consistent with military efficiency.
- (f) Arrangements shall be made for the closer co-ordination of logistics by the Supreme Allied Commander, Europe.
- (g) The level and effectiveness of forces placed under the Supreme Allied Commander, Europe, on the Continent and the armaments and equipment, logistics, and reserve formations of those forces on the Continent shall be inspected by the Supreme Allied Commander, Europe.

"The conference recorded the view of all the Governments represented that the North Atlantic Treaty should be regarded as of indefinite duration."

Principles of UN Charter—German Acceptance

V. Declaration by the German Federal Government and joint declaration by the Governments of France, United Kingdom and United States of America:—

"The following declarations were recorded at the conference by the German Federal Chancellor and by the Foreign Ministers of France, the United Kingdom and United States of America.

Declaration by the German Federal Republic

"The German Federal Republic has agreed to conduct its policy in accordance with the principles of the Charter of the United Nations and accepts the obligations set forth in Article 2 of the Charter.

"Upon her accession to the North Atlantic Treaty, and the Brussels Treaty, the German Federal Republic declares that she will refrain from any action inconsistent with the strictly defensive character of the two treaties. In particular the German Federal Republic undertakes never to have recourse to force to achieve the reunification of Germany or the modification of the present boundaries of the German Federal Republic, and to resolve by peaceful means any disputes which may arise between the Federal Republic and other States."

Declaration by the Governments of U.S.A., U.K. and France

"The Governments of the United States of America, the United Kingdom of Great Britain and Northern Ireland, and the French Republic, being resolved to devote their efforts to the strengthening of peace in accordance with the Charter of the United Nations and in particular with the obligations set forth in Article 2 of the charter.

- (i) to settle their international disputes by peaceful means in such a manner that international peace and security and justice are not endangered;
- (ii) to refrain in their international relations from the threat or use of force against the territorial integrity or political independence of any State, or in any other manner inconsistent with the purposes of the United Nations;
- (iii) to give the United Nations every assistance in any action it takes in accordance with the Charter, and to refrain from giving assistance to any State against which the United Nations take preventive or enforcement action;
- (iv) to ensure that States which are not members of the United Nations act in accordance with the principles of the charter so far as may be necessary for the maintenance of international peace and security;

"Having regard to the purely defensive character of the Atlantic alliance which is manifest in the North Atlantic Treaty, wherein they reaffirm their faith in the purposes and principles of the Charter of the United Nations and their desire to live in peace with all peoples and all Governments, and undertake to settle their international disputes by peaceful means in accordance with the principles of the Charter and to refrain, in accordance with those principles, from the threat or use of force in their international relations.

"Take note that the German Federal Republic has by a declaration dated October 3rd accepted the obligations set forth in Article 2 of the Charter of the United Nations and has undertaken never to have recourse to force to achieve the reunification of Germany or the modification of the present boundaries of the German Federal Republic, and to resolve by peaceful means any disputes which may arise between the Federal Republic and other States:

"Declare that

1. They consider the government of the Federal Republic as the only German Government freely and legitimately constituted and therefore entitled to speak for Germany as the representative of the German people in international affairs.

2. In their relations with the Federal Republic they will follow the principles set out in Article 2 of the United Nations Charter.

3. A peace settlement for the whole of Germany, freely negotiated between Germany and her former enemies, which would lay the foundation of a lasting peace, remains an essential aim of their policy. The final determination of the boundaries of Germany must await such a settlement.

4. The achievement through peaceful means of a fully free and unified Germany remains a fundamental goal of their policy.

5. The security and welfare of Berlin and the maintenance of the position of the three Powers there are regarded by the three Powers as essential elements of the peace of the free world in the present international situation. Accordingly they will maintain armed forces within the territory of Berlin as long as their responsibilities require it. They therefore reaffirm that they will treat any attack against Berlin from any quarters as an attack upon their forces and themselves.

6. They will regard as a threat to their own peace and safety any recourse to force which in violation of the principles of the United Nations Charter threatens the integrity and unity of the Atlantic alliance or its defensive purposes. In the event of any such action the three Governments for their part will consider the offending Government as having forfeited its rights to any guarantee and any military assistance provided for in the North Atlantic Treaty and its protocols. They will act in accordance with Article 4 of the North Atlantic Treaty with a view to taking other measures which may be appropriate.

7. They will invite the association of other member States of the North Atlantic Treaty Organization with this Declaration."

European Unity—Close Association of Britain

VI. Future Procedure

The conference agreed that representatives of the Governments concerned should work out urgently the texts of detailed agreements to give effect to the principles laid down above. These will be submitted, where appropriate, to the North Atlantic Council and to the four Governments directly concerned with the future status of the Federal Republic.

"The conference hoped that it would be possible to hold a Ministerial meeting of the North Atlantic Council on October 22nd to decide on the arrangements affecting NATO. This will be preceded by meetings of the four Foreign Ministers on the question of German sovereignty and of the nine Foreign Ministers.

"These agreements and arrangements constitute a notable contribution to world peace. A western Europe is now emerging which, resting on the close association of the United Kingdom with the Continent and on growing friendship between the participating countries, will reinforce the Atlantic community. The system elaborated by the conference will further the development of European unity and integration.

The following documents are annexed to and form part of the final act: Draft declaration, and draft protocol to the Brussels Treaty; full text of statements by Mr. Dulles, Mr. Eden, and Mr. Pearson at the fourth plenary meeting on September 29th; conference paper on German defence contribution and arrangements to apply to the forces of the Supreme Allied Commander, Europe, on the Continent.

Annex 1. Draft Declaration and Draft Protocol Inviting Italy and the German Federal Republic to Accede to the Brussels Treaty

"The governments of Belgium, France, Luxembourg, the Netherlands and the United Kingdom, parties to the Brussels Treaty of 17th March, 1948, for collaboration in economic, social and cultural matters and for legitimate collective self-defense.

"Aware that the principles underlying the association created by the Brussels Treaty are also recognized and applied by the Federal Republic of Germany and Italy.

"Noting with satisfaction that their devotion to peace and their allegiance to democratic institutions constitute common bonds between the countries of Western Europe.

"Convinced that an association with the Federal Republic of Germany and Italy would represent a new and substantial advance in the direction already indicated by the Treaty.

"Decide:

In application of Article IX of the treaty, to invite the Federal Republic of Germany and Italy to accede to the Brussels Treaty, as revised and completed by the protocol (and list of agreements and documents to be specified in the final text)."

Draft Protocol to the Brussels Treaty

"HM the King of the Belgians, the President of the French Republic, President of the French Union, HRH the Grand Duchess of Luxembourg, HM the Queen of the Netherlands, HM the Queen of the United Kingdom of Great Britain and Northern Ireland and of Her Other Realms and Territories, Head of the Commonwealth, parties to the treaty of economic, social and cultural collaboration and collective self-defense signed at Brussels on March 17th, 1948, hereinafter referred to as the treaty, on the one hand,

"And the President of the Federal Republic of Germany and the President of the Italian Republic on the other hand,

"Inspired by a common will to strengthen peace and security,

"Desirous to this end of promoting the unity and of encouraging the progressive integration of Europe,

"Convinced that the accession of the Federal Republic of Germany and the Italian Republic to the treaty will represent a new and substantial advance toward these aims,

"Have agreed as follows:

Article I

"The Federal Republic of Germany and the Italian Republic hereby accede to the treaty, as revised and completed by the present protocol (and the list of agreements and documents).

Article II

"(A) The sub-paragraph of the preamble to the treaty "to take such steps as may be held necessary in the event of renewal by Germany of a policy of aggression" shall be modified to read:

"To promote the unity and to encourage the progressive integration of Europe."

"(B) The following new article shall be inserted in the treaty as Article IV:

"IV—In execution of the treaty, the high contracting parties and any organs established by them under the treaty shall work in close co-operation with the North Atlantic Treaty Organization."

The present Article IV of the treaty and the succeeding articles shall be renumbered accordingly.

"(C) Article VIII, formerly Article VII, of the treaty, shall read:

"For the purpose of consulting together on all questions dealt with in the present treaty and its protocol and the agreements and other documents set out in Article I above and of strengthening peace and security and of promoting unity and of encouraging the progressive integration of Europe and closer co-operation between member states and with other European organizations, the high contracting parties will create a council, which shall be so organized as to be able to exercise its functions continuously. The Council shall meet at such times as it shall deem fit.

"At the request of any of the high contracting parties, the Council shall be immediately convened in order to permit the high contracting parties to consult with regard to any situation which may constitute a threat to peace, in whatever area this threat should arise, or with regard to any situation constituting danger to economic stability."

Article III

"The present protocol and the agreements set out in Article II shall be ratified and the instruments of ratification shall be deposited as soon as possible with the Belgian government. They shall enter into force upon the date of deposit of the last instrument of ratification."

Annex 2. Conference Paper on German Defence Contribution and Arrangements to Apply to the Forces of SACEUR, on the Continent

"The nine governments represented at the London conference agree to instruct representatives to draw up in Paris, in concert with the military and civilian agencies of NATO through the Secretary General, detailed proposals, for approval by the North Atlantic Council, for a German defense contribution and arrangements to be applied to SACEUR's forces on the Continent. These detailed proposals should be based on the following principles agreed between the nine governments:

"1.—(A) The seven Brussels Treaty powers will conclude a special agreement setting out the forces each of them will place under SACEUR on the Continent.

"(B) The German contribution shall conform in size and general characteristics to the contribution fixed for the EDC brought up to date and adapted as necessary to make it suitable for NATO.

"(C) The terms of this special agreement will be agreed with the other NATO countries.

"(D) If at any time the NATO annual review recommends an increase above the figures in the Brussels special agreement, such increase will require the unanimous approval of the Brussels powers expressed in the Brussels Council or in NATO.

"(E) The Brussels powers will ask that arrangements be made for SACEUR to designate a high-ranking officer who will be instructed to transmit regularly to the Brussels Treaty Organization information acquired as indicated in 3 (F) below in order to permit that organization to establish that the figures agreed among the Brussels powers are being observed.

"2. All forces of NATO countries stationed on the continent of Europe shall be placed under the authority of SACEUR, with the exception of the forces which NATO has recognized or will recognize as suitable to remain under national command.

The strength and armaments on the Continent of the internal defense forces and of the police belonging to the members of the Brussels Treaty Organization shall be fixed by agreements made within this organization, taking into account the task for which they are intended and on the basis of existing levels and needs.

"3. Arrangements to apply to SACEUR's forces:

(a) Forces placed under SACEUR on the Continent shall be deployed in accordance with NATO strategy.

(b) The location of such forces shall be determined by SACEUR after consultation and agreement with the national authorities concerned.

(c) Such forces shall not be redeployed on the Continent nor used operationally on the Continent without his consent subject to appropriate political guidance from the North Atlantic Council.

(d) Forces placed under SACEUR on the Continent shall be integrated as far as possible consistent with military efficiency.

(e) Arrangements shall be made for the closer co-ordination of logistics by SACEUR.

(f) The level and effectiveness of forces placed under SACEUR on the Continent and the armaments, equipment, logistics and reserve formations of those forces on the Continent shall be inspected by SACEUR."

On motion, it was—

Ordered, That the two hundred and sixth to two hundred and fourteenth Reports of the Standing Committee on Divorce, both inclusive, be taken into consideration at the next sitting of the Senate.

The Honourable Senator McLean moved, seconded by the Honourable Senator Turgeon:—

That the Standing Committee on Canadian Trade Relations be empowered to enquire into and report on—

1. What, in their opinion might be the most practical steps to further implement Article 2 of the North Atlantic Treaty whereby the signatories to that document agreed that—"They will seek to eliminate conflict in their international economic policies and will encourage economic collaboration between any or all of them".

2. That notwithstanding the generality of the foregoing, the Committee be instructed and empowered to consider and report upon how, in their opinion,

(a) any project for developing economic collaboration specifically between the countries which are signatories of the North Atlantic Treaty, can be co-ordinated with the trade policies of other countries of the free world;

(b) any project for developing economic collaboration between the countries which are signatories of the North Atlantic Treaty, might have the same degree of permanence that is contemplated in the twenty year Military obligation under Article 5 of the Treaty whereby "The Parties agree that an armed attack against one or more of them in Europe or North America shall be considered an attack against them all".

3. That the Committee be empowered to extend an invitation to those wishing to be heard, including representatives of agriculture, industry, labour, trade, finance and consumers, to present their views, and that the Committee also be empowered to hear representatives from business interests or individuals from any of the NATO countries who might wish to be heard.

4. That the Committee be empowered to send for persons, papers and records, and to secure such services as may be necessary for the purpose of the enquiry.

The question being put on the said motion, it was—
Resolved in the affirmative.

The Honourable Senator Macdonald, P.C., moved, seconded by the Honourable Senator Godbout:—

PRAYERS.

A Message was brought from the House of Commons by their Clerk with a Bill (5), intituled: "An Act to amend the Prairie Farm Rehabilitation Act", to which they desire the concurrence of the Senate.

The said Bill was read the first time, and—

With leave of the Senate, it was—

Ordered, That the said Bill be placed on the Orders of the Day for a second reading to-morrow.

A Message was brought from the House of Commons by their Clerk to return the Bill (U-12), intituled: "An Act to authorize Trans-Prairie Pipelines, Ltd. to construct, own and operate an extra-provincial pipe line",

And to acquaint the Senate that the Commons have passed the said Bill with several amendments, to which they desire the concurrence of the Senate.

The said amendments were then read by the Clerk, as follows:—

1. *Page 1, lines 6 to 11:* Strike out clause 1 and substitute therefor the following clauses:

"1. Don Raphael Brandt, oil executive, Jerry Stanley Starack, comptroller, William Stewart McGregor, oil executive, and Walter Ronald Wiebe, oil executive, all of the city of Edmonton, in the province of Alberta, Francis Leslie Croteau, geological engineer, of the city of Calgary, in the province of Alberta, and Donald John McDonald, investment dealer, and Robert George Brian Dickson, barrister, both of the city of Winnipeg, in the province of Manitoba, together with such persons as may become shareholders in the company, are incorporated under the name of Trans-Prairie Pipelines of Canada, Ltd., hereinafter called "the Company".

2. The persons named in section 1 of this Act shall be the first directors of the Company.

3. (1) The capital stock of the Company shall consist of

(a) five hundred thousand common shares without nominal or par value, and

(b) one hundred thousand preferred shares of the par value of five dollars per share.

(2) The Company may by by-law from time to time

(a) provide for the issue of the preferred shares in one or more series with such preferences, privileges or other special rights, restrictions, conditions or limitations attaching to each series whether with regard to dividends, capital or otherwise as in the by-law may be declared, and

(b) subdivide or consolidate into shares of smaller or larger par value and reclassify into another or different series any unissued preferred shares and amend, vary, alter or change any of the preferences, privileges, rights, restrictions, conditions or limitations which may have been attached to any unissued preferred shares:

Provide that no such by-law shall be valid or acted upon until it has been sanctioned by at least two-thirds of the votes cast at a special general meeting of the common shareholders of the Company duly called for considering the same and until a certified copy of such by-law has been filed with the Secretary of State.

(3) Except to the extent that such rights may be provided by any by-law enacted under subsection (2), the holders of preferred shares of any series shall not as such have the right to vote or to receive notice of or to attend any meeting of the common shareholders of the Company, but no change shall be made affecting the rights or privileges of the holders of issued and outstanding preferred shares of any series except by by-law duly enacted by the directors and sanctioned by the common shareholders in the manner set forth in subsection (2), nor shall such by-law have any force or effect unless or until it has been sanctioned by at least two-thirds of the votes cast at a special general meeting of the holders of the issued and outstanding preferred shares of such series duly called for considering the same, and a certified copy thereof has been filed with the Secretary of State.

(4) Ownership of preferred shares shall not qualify any person to be a director of the Company.

4. (1) The head office of the Company shall be in the city of Winnipeg, in the province of Manitoba, which head office shall be the domicile of the Company in Canada; and the Company may establish such other offices and agencies elsewhere within or without Canada as it deems expedient.

(2) The Company may, by by-law, change the place where the head office of the Company is to be situate.

(3) No by-law for the said purpose shall be valid or acted upon until it is sanctioned by at least two-thirds of the votes cast at a special general meeting of the shareholders duly called for considering the by-law and a copy of the by-law certified under the seal of the Company has been filed with the Secretary of State and published in the *Canada Gazette*.

2. Page 1, line 12: Renumber clause 2 as clause 5.

3. Page 1 line 18: Immediately after clause 5, as renumbered, insert the following clauses:

6. The Company, subject to the provisions of any general legislation relating to pipe lines for the transmission and transportation of gas and oil and other liquid and gaseous hydrocarbons which is enacted by Parliament, may

- (a) within Canada in the Northwest Territories and the provinces of British Columbia, Alberta, Saskatchewan and Manitoba and outside Canada construct, purchase, lease, or otherwise acquire, and hold, develop, operate, maintain, control, lease, mortgage, create liens upon, sell, or convey or otherwise dispose of and turn to account any and all interprovincial, extra-provincial and/or international pipe lines, for the transmission and transportation of gas and oil and other liquid and gaseous hydrocarbons, including pumping stations, gathering systems, terminals, storage tanks or reservoirs and all works relative thereto for use in connection with the said pipe lines, provided that the main pipe line or lines for the transmission and transportation of gas and other gaseous hydrocarbons shall be located entirely within Canada; and buy, or otherwise acquire, sell, distribute or otherwise dispose of gas and oil and other liquid and

gaseous hydrocarbons; and own, lease, sell, operate and maintain aircraft and aerodromes for the purpose of its undertaking, together with the facilities required for the operation of such aircraft and aerodromes; and own, lease, operate and maintain interstation telephone, teletype and telegraph communication systems and, subject to the *Radio Act*, and any other Act relating to radio, own, lease, operate and maintain interstation radio communication facilities;

- (b) purchase, hold, lease, sell, improve, exchange or otherwise deal in real property or any interest and rights therein legal or equitable or otherwise howsoever and deal with any portion of the lands and property so acquired, and may subdivide the same into building lots and generally lay the same out into lots, streets and building sites for residential purposes or otherwise and may construct streets thereon and necessary sewerage and drainage systems and build upon the same for residential purposes or otherwise and supply any buildings so erected, or other buildings erected upon such lands, with electric light, heat, gas, water and other requisites, and lease or sell the same, upon such terms and subject to such conditions as appear requisite, either to its employees or to others; and
- (c) exercise as ancillary and incidental to the purposes or objects set forth in this Act, the powers following, unless such powers or any of them are expressly excluded by this Act, namely, the powers set forth in paragraphs (a) to (bb) inclusive of subsection (1) of section 14 of the *Companies Act*.

7. The provisions of subsections (7), (8), (9), (10) and (11) of section 12 and sections 39, 40, 62, 63, 64, 65 and 91 of Part I of the *Companies Act*, apply to the Company: Provided that wherever in the said subsections (7) and (11) of section 12, the words "letters patent" or "supplementary letters patent" appear, the words, "Special Act" shall be substituted therefor.

8. Sections 162, 167, 184, 190, 193 and 194 of Part III of the *Companies Act*, shall not be incorporated with this Act.

9. (1) The Company shall not make any loan to any of its shareholders or directors or give, whether directly or indirectly, and whether by means of a loan, guarantee, the provision of security or otherwise, any financial assistance for the purpose of, or in connection with, a purchase made or to be made by any person of any shares in the Company: Provided that nothing in this section shall be taken to prohibit:

- (a) the making by the Company of loans to persons other than directors, bona fide in the employment of the Company with a view to enabling or assisting those persons to purchase or erect dwelling houses for their own occupation; and the Company may take, from such employees, mortgages or other securities for the repayment of such loans;
- (b) the provision by the Company, in accordance with any scheme for the time being in force, of money for the purchase by trustees of fully paid shares in the capital stock of the Company, to be held by, or for the benefit of, employees of the Company, including any director holding a salaried employment or office in the Company; or

(c) the making by the Company of loans to persons, other than directors, bona fide in the employment of the company, with a view to enabling those persons to purchase fully paid shares in the capital stock of the Company, to be held by themselves by way of beneficial ownership.

(2) The powers under paragraphs (b) and (c) of subsection one of this section shall be exercised by by-law only.

(3) If any loan is made by the Company in violation of the foregoing provisions, all directors and officers of the Company making the same and assenting thereto, shall until repayment of said loan, be jointly and severally liable to the Company and to its creditors for the debts of the Company then existing or thereafter contracted: Provided that such liability shall be limited to the amount of said loan with interest.

10. The redemption or purchase for cancellation of any fully paid preferred shares created by this Act or by by-law pursuant to the provisions of this Act, in accordance with any right of redemption or purchase for cancellation reserved in favour of the Company in the provision attaching to such preferred shares, or the redemption or purchase for cancellation of any fully paid shares of any class, not being common or ordinary shares, and in respect of which the by-laws provide for such right of redemption or purchase, in accordance with the provisions of such by-laws, shall not be deemed to be a reduction of the paid-up capital of the Company, if such redemption or purchase for cancellation is made out of the proceeds of an issue of shares made for the purpose of such redemption or purchase for cancellation, or if,

(a) no cumulative dividends, on the preferred shares or shares of the class in respect of which such right of redemption or purchase exists and which are so redeemed or purchased for cancellation, are in arrears; and

(b) if such redemption or purchase for cancellation of such fully paid shares is made without impairment of the Company's capital by payments out of the ascertained net profits of the Company which have been set aside by the directors for the purposes of such redemption or of such purchase for cancellation, and if such net profits are then available for such application as liquid assets of the Company, as shown by the last balance sheet of the Company, certified by the Company's auditors, and being made up to a date not more than ninety days prior to such redemption or purchase for cancellation, and after giving effect to such redemption or purchase for cancellation;

and subject as aforesaid, any such shares may be redeemed or purchased for cancellation by the Company on such terms and in such manner as are set forth in the provisions attaching to such shares, and the surplus resulting from such redemption or purchase for cancellation shall be designated as a capital surplus, which shall not be reduced or distributed by the Company except as provided by a subsequent Act of the Parliament of Canada.

11. The Company may pay a commission to any person in consideration of his subscribing or agreeing to subscribe whether absolutely or conditionally, for any shares, bonds, debentures, debenture stock or other securities of the Company, or procuring or agreeing to procure subscriptions, whether absolute or conditional, for any shares, bonds, debentures, debenture stock or other securities of the Company: Provided, however, that as regards shares, such commission shall not exceed ten per centum of the amount realized therefrom."

In the Preamble.

4. *Page 1, line 1:* After "Ltd.", insert the following:

" , a company incorporated under the laws of the province of Manitoba,"

In the Title.

5. *Change the title from:*

"An Act to authorize Trans-Prairie Pipelines, Ltd. to construct, own and operate an extra-provincial pipe line."

to:

"An Act to incorporate Trans-Prairie Pipelines of Canada, Ltd."

APPENDIX

THURSDAY, June 16, 1955.

The Standing Committee on Finance, to whom were referred the Estimates laid before Parliament for the fiscal year ending March 31st, 1956, reports as follows:

On Wednesday, March 16th last, the Senate passed the following Reference to the Senate Finance Committee:

That the Standing Committee on Finance be authorized to examine the expenditures proposed by the Estimates laid before Parliament for the fiscal year ending March 31, 1956, in advance of the Bills based on the said Estimates reaching the Senate: That the said Committee be empowered to send for records of revenues from taxation collected by the Federal, Provincial and Municipal Governments in Canada and the incidence of this taxation in its effect upon different income groups, and records of expenditures by such governments, showing sources of income and expenditures of same under appropriate headings, together with estimates of gross national production, net national income and movement of the cost-of-living index, and their relation to such total expenditures, for the year 1939 and for the latest year for which such information is available, and such other matters as may be pertinent to the examination of the Estimates, and to report upon the same.

That the said Committee be empowered to send for persons, papers and records.

(1)

In reports of previous years Your Committee has sought to show the effect of inflation upon public finance at all levels of government. That factor is still at work and is reflected directly in unprecedented estimates of the Country's gross national wealth and income. In this report, however, we simply point out some high spots in connection with the Federal Government Estimates, which reflect continued increases in public spending. We draw attention particularly to significant increases in the numbers of civil servants with special reference to the Department of National Defence, and to high costs connected with the construction of new buildings and the reconstruction of old ones. Our examination of witnesses was confined altogether to officials from the Treasury Board, the Civil Service Commission, the National Defence Department and the Department of Public Works. Your Committee has not been able to have as many meetings, or give as much detailed attention to the entire list of estimates as in previous years, owing to the delayed reference to the Committee in the earlier part of the Session; and to the preoccupation of many of our members with other Committee work.

(2)

CIVIL SERVICE INCREASES

Your Committee did assemble data from official sources showing the steady increase in Civil Service personnel over recent years (Exhibit 1). It will be noted from this data that the paid servants of the Government have increased in number more than fifteen thousand in the last 2 years, mainly in the Defence Department. The total in the Service is now over 174,000.

In 1939 the cost of the Service in salaries and wages was well under \$80 million. For the present fiscal year the total of Civil Service salaries and wages exceeds \$554 million. This latter, it may be added, is about \$40 million in excess of the previous year. The introduction of the five-day week over a large area of the Service has been responsible to a considerable extent for this increase which, of course, in the final analysis, has to be paid by taxpayers throughout the land. Evidence supplied by the Department of Public Works showed that as the result of the recent adoption of the five-day week, costs of servicing Public buildings in Ottawa alone had been increased by \$243,000.

Included in this Exhibit also is a list of Crown Corporations, 23 in number. Many of these Crown Corporations pay their own way and a few have substantial surpluses from year to year in their operations. It should be clearly kept in mind, however, that since these are Crown Corporations the Government must make good the deficits when any of them fail to make ends meet. An illustration of this was the Canadian National Railways in 1954. It will be noted also that in round figures the total employees in Crown Corporations at the end of 1954 numbered 138 thousand. If we combine these with the Civil Service figures, excluding revenue postmasters who receive their remunerations mostly from commissions, the total number of persons directly and indirectly associated with Government activities at February 28, 1955, was over 312 thousand.

Included also is a summary of expenditures for the current fiscal year compared with the previous year, under the heading of "Standard Objects of Expenditures in Special Categories" (Exhibit 2). This shows the total expenditures by all Departments for these various purposes. Associated with this is a statement of the amount each Department of Government contributed to these expenditures (Exhibit 3). This statement (found in the pocket at the back of this report) provides the details of the summary just mentioned. This document was presented to Parliament by the Minister of Finance along with his annual estimates at the beginning of this Session. Your Committee suggests that all members of Parliament as well as others interested in Public Affairs would find a study of it useful.

COSTS OF PUBLIC CONSTRUCTION

The figures relating to the costs of certain public buildings (Exhibit 4) in Ottawa, are cited as an example of the increasing expenditures connected with Government Buildings everywhere. The officials from the Public Works Department, in their evidence, pointed out that plans and estimates for all such construction are now subject to the close examination and approval of committees of departmental officials, as well as by the members of Treasury Board. The Public Works Department is now trying to bring all Federal public building under its supervision, as provided by the Public Works Act. During the war years and the immediate post-war period, much building expansion was initiated and undertaken directly by other Departments; and we think that the present trend to restore all such activities to the control of the Public Works Department should bring greater efficiency and greater economy.

(3)

GROSS NATIONAL PRODUCT

We mention here a statement showing the gross national product and national income for the years 1939 and 1945 to 1954 inclusive (Exhibit 5). Your Committee emphasizes the importance of this Exhibit. The gross national

product is the total of gross earnings of all the Canadian people in all their varied activities. This is the index to the economic health of the nation. If this gross product expands steadily year after year, a broader basis for taxation results. It thus follows that a given rate of taxation will produce increasing revenue as the national product increases; and conversely if expenditures are held down taxes can be reduced. However, if for any reason the gross product fails to increase, or declines, less revenue is produced from taxes and, with the same given expenditures, deficits are the consequence. This happened in 1954 when gross product declined, as against 1953, well over \$400 million, accounted for mainly by a large measure of crop failure in the Prairie Provinces, and a higher ratio of unemployment due to curtailment of markets. It is clear now that the competition between the larger countries of the world for markets is becoming more intense and this competition may well force downwards the prices we receive for our exports. Any serious decline in prices, and more important, any loss of markets due to causes beyond our control would be bound to react adversely on the total of our gross National Product. This feature of our economy cannot carry too heavy emphasis.

It may be added here that the difference between the gross national product and the net national income is accounted for very largely by charges against gross income of such things as depreciation and obsolescence.

(4)

REVENUES AND EXPENDITURES

(Exhibit 6) is a summary of net general combined revenues and expenditures of all Governments in Canada for the years 1939, 1945 and 1950 to 1955 inclusive. The amounts for 1954 and 1955 are estimated but can be considered to be approximately correct. In previous reports this data was further analyzed, giving the main sources from which revenues were derived by all Governments and the main purposes for which money was expended. We regret that this cannot be included in the present report. The Bureau of Statistics, which in the past has supplied this information, has been for some time engaged in the preparation of similar data for the coming Federal-Provincial Conference in October next, and this naturally had first priority.

Your Committee would emphasize the importance of this data on revenues and expenditures by all Governments, which means Municipal Governments, Provincial Governments and the Federal Government. For example, in 1950, the revenue of all Governments combined was roughly \$4 billion, 300 million, and their expenditures \$4 billion, 100 million. In 1954 the total collected in revenue was almost \$5 billion, 950 million and the expenditures were \$6 billion, 370 million. For 1955 (estimated) the corresponding figures are, revenue \$6 billion, 158 million, and expenditures \$6 billion, 695 million.

There is an indication here of a tendency to increasing expenditures beyond the needs of the normal increase in population. This means what is generally known as "deficit financing". It becomes epidemic and increasingly affects all public financing—Municipal and Provincial as well as Federal. What happens if this tendency continues and through possible inability to find markets for our products at profitable prices our economy slows down? Your Committee feels that this is a matter which deserves the earnest attention of public men everywhere, irrespective of where the responsibility for governing lies, because a progression of years with "deficit financing" will mean ruinous inflation.

(5)

CONSUMER PRICES AND INFLATION

At this point in our report we include a table (Exhibit 7) showing the Consumer Price Index of the Bureau of Statistics. Prior to 1949 this was called the Cost-of-living Index, but for reasons which need not be considered

here was changed in 1949 to Consumer Price Index. This table shows that for the last three years this index has remained quite stable. The inflationary trends of five years ago have been brought under control, for the time being at any rate—a matter of very great importance for all Canadians. It should not be forgotten, however, that inflation is still a powerful factor in our economy. The important thing here for all Governments is to strive to keep their spending within their income. The increasing demands, by sections of our population, on all Governments for more expenditures, to meet needs fancied or real, can be noted almost every day. In addition demands come from farmers for guaranteed prices for agricultural products, from Labor Unions for a guaranteed annual wage and higher rates of pay, from well-meaning groups of individuals for higher welfare expenditures, and from industries exposed to foreign competition for subsidies or more Tariff protection. To what degree these demands upon Governments undermine the admirable qualities of self-reliance and initiative in the individual may be a question for debate. But there can be little doubt the extent to which such demands are met, in its end results, creates inflationary pressures.

(6)

For general information we include here a table (Exhibit 8) of selected items of consumer expenditure. While we have not precise figures of the total expenditures by all Governments combined under the broad heading of social welfare, it may be assumed that, at the present time, this is in excess of \$1 billion, 600 million per year. We think it is worthy of note that the Canadian people, for alcoholic beverages, tobacco in its various forms, race track betting, soft drink beverages of all kinds, and commercial recreation, are spending well in excess of the total amount expended under the heading of welfare.

(7)

ECONOMY IN PUBLIC SPENDING

Your Committee offers here some general observations. For reasons already stated it was not possible to make extensive examinations of all items of expenditures. The big item is, of course, the outlay associated with the defence services. It is not possible to forecast how these defence expenditures may proceed, but it appears to be a safe assumption that they will continue without much change for several years. Our responsibility to NATO, the need for ensuring our defences in our Northern Frontiers, appears to make certain that, unless some effective international plan of controlling armaments is worked out, we shall require to bear these burdens for the indefinite future. Your Committee does suggest that these are hard inescapable facts. This emphasizes the need and importance of the strictest economy in ordinary Government administration, whether it be Municipal, Provincial or Federal.

As already noted, we can view only with concern the increasing pressures on all Governments of sections of public opinion for increased spending. We do think that in this respect Governments, as the responsible leaders of the country, must cultivate realistic resistance to sections of the public which appear to think that Governments have inexhaustible resources to meet all the demands made upon them.

The Canadian people have a great record of achievement. In less than ninety years, since Confederation, they have developed a country that was largely a wilderness to the point where it is now the third or fourth trading nation in the world; where Canada has taken her place honourably in two world wars in defence of freedom; where organs of government at all levels have

been established, and universities, schools and hospitals have been erected. With all this, a boundless natural heritage still remains to afford a sound economic basis for an enlightened, happy and prosperous people.

But we do wish to emphasize that if we are to enjoy in the future the fruits of past achievements we must journey along the road of reason and common sense and avoid the pitfalls of unsound political appeals.

WHERE THE BURDEN LIES

Your Committee suggests that in matters of public spending there is a lack of understanding in the minds of many people of what the business of Government, at all levels is about. Governments have no money of their own. They can secure their money requirements only by taking it out of peoples' pockets in taxes, or by borrowing so long as they are able to borrow. If taxation becomes burdensome, and we believe that this is the case today, the individual's ability to spend and prosper in his own way is curtailed. Equally, when Governments have to borrow to meet deficits, the danger signals are definitely flying. Surely it is possible for Governments to economise both in small things and large things, and thereby set a good example to individuals in the nation everywhere.

Above all, it is important to keep alive in the minds of all the people of the nation an understanding of what freedom means. People may clamour for security—many are doing that today—but it should never be forgotten that if personal freedom is sacrificed for personal security provided by Governments, the individual can have no guarantee that in the end he will have either freedom or security.

All of which is respectfully submitted.

T. A. CRERAR,
Chairman.

NOTES:

- (a) The statistics for regular Government Departments include Classified Employees, Prevailing Rate Employees, Casual Employees and Ships' Officers and Crews.

Classified employees comprise those paid on the basis of stated annual salaries, the vast majority being under certificate of the Civil Service Commission, the balance being employed under the authority of other statutes (e.g. staffs of the National Research Council, the National Film Board, and the Canadian Government Elevators).

Prevailing Rate Employees are those whose remuneration is based on the prevailing hourly, daily or monthly rate for similar type of work in the area of employment and who occupy a continuing year round position on the establishment of a Department. Casual Employees are those whose remuneration is based on the prevailing hourly, daily or monthly rate for a similar type of work in the area of employment and who are employed for short periods of time in connection with specific projects.

Ships' Officers and Crews are employed on Canadian Government Vessels.

- (b) Excludes revenue postmasters, figures for which are shown separately immediately below the sub-total.

NOTES

*A further breakdown by Standard Objects by Departments for the years 1954-55 and 1955-56 is set out following the "Definitions of Standard Objects and Special Categories".

†Includes \$75 million in 1951-52, being a special Government Contribution to the Civil Service Superannuation Account, designed to reduce the deficit in the Account.

‡Includes \$28.7 million in 1954-55, being the Canadian National Railways Deficit for 1954.

DEFINITIONS OF STANDARD OBJECTS OF EXPENDITURE AND SPECIAL CATEGORIES

Standard Objects (Items 1 to 22)

1. Civil Salaries and Wages

Includes salaries and wages, overtime and other special pay of all civilian full time, part time, seasonal and casual personnel normally considered as "Government Employees" (but does not include employees of agency and proprietary Crown corporations) whether paid at hourly, daily, weekly, monthly or annual rates of pay. It also includes Judges' salaries, those of the Governor General and Lieutenant-Governors and the indemnities to Members of both Houses of Parliament but does not include persons engaged for a specific project where pay and other costs would normally enter into the total cost of the project.

2. Civilian Allowances

Includes all types of allowances paid to or in respect of personnel normally considered as "Government Employees", such as Living, Terminable, Officer-in-Charge, Living and Representation Abroad, Special Service, Northern, Isolation, and Board and Subsistence Allowances, Mileage Allowances to Railway Mail Service Staffs, Allowances for Assistants, and other such allowances. Also includes Ministers' Motor Car Allowances, and the Expense Allowances to Senators and Members of the House of Commons.

3. Pay and Allowances—Defence Forces and R.C.M. Police

Includes pay and all types of allowances (except travel allowances included in Item No. 5 below) payable to members of the Defence Forces and the Royal Canadian Mounted Police, including Subsistence Allowances and other perquisites common to such Services.

4. Professional and Special Services

Includes provision for services performed by individuals or organizations outside a particular departmental service, other than such services identified with specific works, projects or with projects and programs for which provision is made under Items 9 and 10; payments in the nature of fees, commissions, etc. for legal services, architects', engineers', analysts', accountants', reporters', translators', and writers' services; medical and dental services, doctors and nurses for Veterans Treatment and examination of pension applicants, hospital treatment and care and other outside technical, professional and other expert assistance; annuities and other agents paid on a fee or commission basis, payments to church organizations for Indian education, and Corps of Commissionaires services. It includes armoured car service and other operational and maintenance services performed under contract other than those more properly classified under other Items, such as the Marconi-operated Radio Stations of the Department of Transport which are included in Item No. 8.

5. Travelling and Removal Expenses

Includes travelling and transportation expenses of Government Employees, Members of the Defence Forces and the Royal Canadian Mounted Police, removal expenses of those persons and their dependents, and living and other expenses of such persons on travel status; Judges' travelling expenses and travelling expenses and allowances payable to Senators and Members of the House of Commons. It also includes transportation of persons by contract and chartered facilities or by other means, automobile mileage, aeroplane fares, local transportation, etc., travelling expenses of persons engaged in field survey work, inspections and investigations. Does not include travelling and transportation of other than Government Employees such as travel costs for deportees, applicants for treatment or pensions (veterans), etc., which are classified under Item No. 22.

6. Freight, Express and Cartage

Includes the cost of transportation of goods other than initial delivery cost on a purchase which is included in the Object covering the cost of the purchase itself. These costs range from the movement of mails from city Post Offices to the various Government Departments, to the movement of heavy equipment between camps and other establishments of the Defence Services.

7. Postage

Includes ordinary postage, air mail, registered mail, special delivery mail, post office box rentals and any other postal charges. Does not, of course, include provision for mail enjoying the "frank" privilege.

8. Telephones, Telegrams and Other Communication Services

Includes all costs of communication services by telephone, telegram, cable, teletype, radio and wireless communication (tolls, rates, rentals, etc.) and other communication costs such as Courier Services provided by outside agencies and communication services performed under contract or agreement such as the Marconi-operated Radio Stations of the Department of Transport.

9. Publication of Departmental Reports and Other Material

Includes provision for the publication, through the Queen's Printer, of Departmental Reports and other material, including informational and educational bulletins and pamphlets; publications on scientific and technical matters, natural resources, statistics and other such material; Hansard and other Parliamentary Papers; maps, charts, etc. The costs of printing, binding, engraving, lithographing, artwork, mats, writers' fees, and other costs attributable to specific publication projects and programs are included hereunder, with the exception of those belonging under Items 1, 2 and 5. The costs of publications and material produced wholly within a Service are distributed throughout other Items. The printing of forms and other stationery is included under Item No. 11.

10. Films, Displays, Advertising and Other Informational Publicity With the Exception of Publications

Includes provision for films, displays and other visual materials, advertising for publicity and general purposes, including advertising for tenders (except that charges directly arising from specific construction projects or purchases are included under such headings). It includes publication of proclamations, announcements, notices, etc., and various forms of educational and informational publicity, by radio, poster, press and other means. The costs of artwork, writers' fees, casual employees hired for a specific project, and other costs attributable to the foregoing are included hereunder with the exception of those belonging under Objects Nos. 1, 2 and 5, and the costs of projects or programs produced wholly within a Service where the costs are distributed throughout other Objects. Total provision for the operation of the National Film Board and the International Service of the Canadian Broadcasting Corporation is included under this item.

11. Office Stationery, Supplies, Equipment and Furnishings

Includes stationery, envelopes, blotting paper and other office supplies such as pens, pencils, erasers, ink, etc.; printed forms, including tax return, statistical and like forms; letterheads, ledgers and ledger sheets, carbon paper, stencils and other paper supplies; the purchase, repair and rentals of office machines and appliances, including typewriters, adding machines, calculators, recording machines, tabulating machines, microfilming equipment and supplies, inter-office communication equipment, postal meter machines, machine records and all other office equipment; also includes desks, chairs, filing cabinets and such office furnishings; books, newspapers and periodicals for office or library use.

12. Materials and Supplies

Includes provision for materials and supplies required for normal operation and maintenance of Government Services (other than Office Stationery, Supplies and Furnishings). It includes gasoline and oil purchase in bulk; fuel for ships, planes, transport, heating, etc.; feed for livestock; food and other supplies for ships and other establishments; live stock purchased for ultimate consumption or resale; seed for farming operations; food, clothing and other supplies for sick and indigent Indians; text books and school supplies purchased for Indian schools; books and other publications purchased for outside distribution; uniforms and kits, coining and refining supplies for the Mint; photographs, maps and charts purchased for administrative and operational purposes; laboratory and scientific supplies, including samples for testing; drafting, blueprinting and artists' supplies; supplies for surveys, investigations, etc.; chemicals, hospital, surgical and medical supplies; mail bags for transportation of the mails; char service supplies; coal, wood and electrical supplies; and all other materials and supplies other than those purchased for construction or repair projects which would normally be charged to such projects.

13. Construction or Acquisition of Buildings and Works, Including Acquisition of Land

Includes provision for all expenditures on new construction of buildings, roads, irrigation works, canals, airports, wharfs, bridges and other such type of fixed assets, and reconstruction of such type of assets, improvements involving additions or changes of a structural nature,

and also the installed cost of fixed equipment which is essentially a part of the work or structure such as elevators, heating and ventilating equipment, etc. It includes all such projects performed under contract or agreement or undertaken by a Department directly. The purchase of land is also included. The cost of casual employees hired for specific projects is included but not the cost of continuing employees assigned to work full or part time on such projects.

14. Repairs and Upkeep of Buildings and Works

Includes materials, supplies and other charges entering directly into the cost of repair and upkeep of the type of durable physical assets indicated under Item No. 13 above. It includes repair and upkeep projects performed under contract or agreement or undertaken by a Department directly.

15. Rentals of Land, Buildings and Works

Includes provision for rentals of properties required for special purposes by the various Departments and for the accommodation of Government Offices and Services by the Department of Public Works. Also includes rentals of space for storage of motor cars and other equipment and supplies.

16. Construction or Acquisition of Equipment

Includes provision for all new machinery, equipment and furnishings (other than office equipment and office furnishings), and includes motor vehicles, aeroplanes, tractors, road equipment, laboratory and other scientific equipment, vessels, ice-breakers and other aids to navigation and all other types of light and heavy equipment, and includes various types of such equipment for National Defence, such as ships, aircraft, mechanical equipment, fighting vehicles, weapons, engines, and such spare parts as are normally acquired with that equipment, workmen's tools, farm implements, furniture and furnishings required for other than normal office purposes. Also includes live stock, horses and dogs purchased for employment as such rather than for ultimate consumption or resale (see Item No. 12 above).

17. Repairs and Upkeep of Equipment

Includes all materials, repair and replacement parts and other costs entering directly into the cost of repair and upkeep of the type of equipment indicated in Item No. 16 above.

18. Rentals of Equipment

Includes provision for hire and charter—with or without crew—of vessels, aircraft, motor vehicles and other equipment (but excluding hire of such vehicles primarily for travel or cartage covered in other items, or hire of vehicles or other equipment for works projects where the rental would normally be included in the costs of the projects).

19. Municipal or Public Utility Services

Includes provision for all payments for services of a type normally provided by a Municipality, School Board, or Public Utility Service such as the supply of water, electricity, gas, etc., and includes water rates, light, power and gas services, school fees, and payment for such services whether obtained from the Municipality or elsewhere; taxes and water rates on diplomatic properties. Also includes payments to Municipalities in lieu of Taxes and local improvement charges.

20. Contributions, Grants, Subsidies, etc., not included Elsewhere

Includes contributions to international and other organizations; contributions toward the cost of joint undertakings and programs not directly the responsibility of the Federal Government; contributions or grants to governments outside Canada, whether in money or in kind; grants to national organizations such as the Boy Scouts Association and agricultural, health, welfare and similar organizations; subsidies to primary and other industries; contributions under agreements with the Provinces for vocational training and other purposes, unless otherwise provided for in special categories; payments under the Maritime Freight Rates Act; grants to various exhibitions, etc.; research grants and other assistance toward research carried on by non-governmental organizations; scholarships and similar payments. Does not include Grants to Municipalities in lieu of Taxes (Item No. 19),

Subsidies and Special Payments to the Provinces (Item No. 24), Government's contribution to the Unemployment Insurance Fund (Item No. 29), General Health Grants paid to Provinces (Item No. 30), contributions to the Provinces for the Trans-Canada Highway (Item No. 31), nor the Deficits on Government Owned Enterprises (Item No. 33).

21. Pensions, Superannuation and Other Benefits in Consideration of Personal Services

Includes pensions, superannuation and other benefits to former civilian Government employees and ex-members of the Royal Canadian Mounted Police, or their dependents. It also includes payment of compensation under the Government Employees Compensation Act, the Government's contribution to the Superannuation Account and the Members of Parliament Retiring Allowances Account, Sick Mariners Dues, Judges' Pensions, Gratuities in lieu of Retiring Leave, Gratuities to Families of Deceased Employees, the Government's contribution to the Public Service and Regular Forces Death Benefit Accounts, payments under the Defence Services Pension Act and the Government's contribution, as an employer, to the Unemployment Insurance Fund. It does not, however, include the Government's contribution to the Unemployment Insurance Fund which represents one-fifth of the net amount contributed by employers and employees combined (Item No. 29) Disability Pensions in respect of World Wars 1 and 2 (Item No. 27), nor Other Payments to Veterans and Dependents (Item No. 28).

22. All Other Expenditures (other than Special Categories)

Includes minor residual items shown as "Sundries" in practically all votes. These include such costs as towel service, laundering and dry cleaning, loss of personal effects, bonding of Government employees, and other small miscellaneous articles and services. It includes licences, permits, dockage, towage, wharfage and mooring privileges; works of art for exhibits, and historical material for galleries, museums and archives. It includes travel costs incurred for other than Government employees, e.g., immigrants, veteran patients and migrant labour. Also included is provision for many items and services detailed throughout the Estimates which do not lend themselves to distribution under the specific headings detailed in this Summary.

SPECIAL CATEGORIES (Items 23 to 33)

23. Interest on Public Debt and Other Debt Charges

Includes interest on the Funded Debt of Canada (including Treasury Bills) and on other liabilities such as Trust and Other Special Funds. It also includes costs of issuing new loans, Annual Amortization of Bond Discount, Premiums and Commissions, and the costs of servicing the Public Debt.

24. Subsidies and Special Payments to the Provinces.

Includes Provincial Subsidies payable under the British North America Act and subsequent arrangements; Special Compensation to the Provinces in lieu of certain taxes as provided in the Tax-Rental Agreements. It also includes certain payments to Newfoundland under the Terms of Union. In general, it does not include payments made to Provinces for expenditures for specific purposes, some of which are included in Items Nos. 20, 26, 30 and 31.

25. Family Allowances Payments

Payments of monthly allowances authorized by the Family Allowances Act—Chap. 109, Revised Statutes.

26. Old Age Pensions, Including Allowances to the Blind and the Disabled

Includes pensions authorized by the Old Age Security Act, payment of the Federal Government's 50% share of old age assistance authorized by the Old Age Assistance Act, payment of the Federal Government's 75% share of allowances paid to blind persons under the Blind Persons Act, and payment of the Federal Government's 50% share of allowances paid to disabled persons under the Disabled Persons Act.

27. Veterans' Disability Pensions and Other Payments Under the Pension Act

Includes pensions and other payments authorized under the Pension Act, the Civilian War Pensions and Allowances Act and the Civilian Government Employees (War) Compensation Order. Most of these payments arise from service during World Wars 1 and 2.

28. Other Payments to Veterans and Dependents

Includes provision for War Veterans Allowances, including the Assistance Fund, Veterans Treatment and Other Allowances, Unemployment Assistance for Veterans, Rehabilitation Benefits, War Service Gratuities, Re-establishment Credits and other Sundry Items.

29. Government's Contribution to the Unemployment Insurance Fund

Provides for the Government's contribution to the Unemployment Insurance Fund and represents one-fifth of the net amount contributed by employers and employees combined.

30. General Health Grants

Provides for General Health Grants to the Provinces, the Northwest Territories and the Yukon Territory under terms and conditions approved by the Governor in Council to assist in hospital construction, extending and improving health services, prevention of tuberculosis, prevention of mental illness, control of venereal diseases, prevention and treatment of crippling conditions in children, training of health and hospital personnel, programs for the detection and treatment of cancer, public health research, provision of laboratory and radiological diagnostic facilities and services, medical rehabilitation and the improvement of maternity, infant and child care.

31. Trans-Canada Highway Contributions

Covers payments to those Provinces which have entered into agreements with the Federal Government under the Trans-Canada Highway Act, Chap. 269, Revised Statutes, in respect of the construction of the Trans-Canada Highway.

32. Movement of Mail by Land, Air and Water (Post Office)

Includes provision under the Post Office Department for Mail Service by Air, Water and Ordinary Land Conveyance, including Rural Mail Delivery.

33. Deficits—Government Owned Enterprises

Includes provision for the deficits incurred in the operation of Government Owned Enterprises such as the Hudson Bay Railway, the Canadian National (West Indies) Steamships, Limited, the Prince Edward Island Car Ferry and Terminals, the North Sydney, N.S.—Port-aux-Basques, Nfld., Ferry and Terminals, and Churchill Harbour.

34. Less—Estimated Savings and Recoverable Items

In certain special instances it is necessary for commitment and control purposes to detail total requirements of services but, in order that the actual amount of cash requirement only may be voted, deductions are made of estimated savings or recoverable amounts. Since the Standard Objects are made up of the gross requirements, the total of those objects must be reduced by these deductions in order to arrive at the total amount provided in the Estimates.

PRAYERS.

A Message was brought from the House of Commons by their Clerk with a Bill (351), intituled: "An Act respecting Canadian National Railways", to which they desire the concurrence of the Senate.

The said Bill was read the first time, and—

With leave of the Senate, it was—

Ordered, That the said Bill be placed on the Orders of the Day for a second reading to-morrow.

A Message was brought from the House of Commons by their Clerk to return the Bill (352), intituled: "An Act respecting the Inspection of Meat and Meat Products Entering into International and Interprovincial Trade",

And to acquaint the Senate that they have agreed to the amendments made by the Senate to the said Bill, without amendment.

A Message was brought from the House of Commons by their Clerk to return the Bill (411), intituled: "An Act to Establish National Standards for Agricultural Products and to Regulate International and Interprovincial Trade in Agricultural Products",

And to acquaint the Senate that they have agreed to the amendments made by the Senate to the said Bill, without amendment.

The Honourable Senator Roebuck, Chairman of the Standing Committee on Divorce, presented their four hundred and twenty-seventh Report.

The said Report was then read by the Clerk, as follows:—

WEDNESDAY, June 15th, 1955.

The Standing Committee on Divorce beg leave to make their four hundred and twenty-seventh Report, as follows:—

For the present Session 473 petitions for Bills of Divorce were presented to the Senate and dealt with by the Standing Committee on Divorce, as follows:—

Petitions heard and recommended	407
Petitions heard and rejected	7
Petitions withdrawn	11
Petitions not proceeded with	48

Total	473
-------------	-----

Of the petitions recommended during the present Session of Parliament, 124 were by husbands and 283 were by wives.

Of the petitions recommended during the present Session of Parliament, 1 was from a petitioner domiciled in the province of Newfoundland and 406 were from petitioners domiciled in the province of Quebec.

The petitioner domiciled in the province of Newfoundland was a wife.

Of the 406 petitioners domiciled in the province of Quebec, 124 were husbands and 282 were wives.

The Committee met on 52 days and held a total of 190 meetings of which 138 were meetings of Subcommittees. On 10 days the Committee functioned in 4 sections. On 23 days the Committee functioned in 3 sections. On 10 days the Committee functioned in 2 sections. On 9 days the Committee functioned in 1 section.

In 24 cases the Committee recommended that part of the Parliamentary fees be remitted.

The fees paid to Parliament for Bills of Divorce heard and recommended during the 1955 Session amounted to \$82,280.00.

Assuming that all Bills of Divorce recommended by the Committee, now in various stages before Parliament, receive the Royal Assent, the comparison of dissolutions of marriage granted by Parliament in the last ten Sessions is as follows:—

1947	348
1947-48	292

APPENDIX

THURSDAY, June 23, 1955.

The Special Committee of the Senate on the Traffic in Narcotic Drugs in Canada begs leave to present the following as its final report.

PART I—GENERAL

On February 24, 1955, the following Resolution was adopted in the Senate:—

1. That a Special Committee of the Senate be appointed to inquire into and report upon the traffic in narcotic drugs in Canada and problems related thereto.
2. That the said Committee be composed of the Honourable Senators Baird, Burchill, Gershaw, Grant, Hayden, Hawkins, Hodges, Horner, Howden, Hugessen, Leger, McIntyre, Quinn, Reid, Stambaugh, Turgeon, Vaillancourt, Veniot and Woodrow.
3. That the Committee be empowered to send for persons, papers and records.
4. That the Committee be instructed to report to the House from time to time its findings, together with such recommendations as it may see fit to make.

On March 2, 1955, the following motion was passed, namely, that the Committee be authorized to print 800 copies in English and 200 in French, of the Proceedings, and that Rule No. 100 be suspended in relation to the said printing.

On March 2, 1955, it was resolved that the Honourable Senator Reid be elected Chairman of the Committee, and that a Steering Committee be appointed, the members of which shall be selected by the Chairman. It was further resolved that the quorum of the Committee be reduced to seven members.

The original membership of the Committee was changed on March 9 by the substitution of Honourable Senator Kinley for Honourable Senator McDonald, and on March 22 by adding to the Committee Honourable Senators Beaubien, King and McKeen.

The composition of the Committee was then, and has remained as follows:—

The Honourable TOM REID, *Chairman*.

The Honourable Senators

Baird,	Horner,	Quinn,
Beaubien,	Howden,	Reid,
Burchill,	Hugessen,	Stambaugh,
Gershaw,	King,	Turgeon,
Grant,	Kinley,	Vaillancourt.
Hayden,	Leger,	Veniot,
Hawkins,	McIntyre,	Woodrow.
Hodges,	McKeen,	

23 members—Quorum 7.

The members of the Steering Committee are Honourable Senators Burchill, Gershaw, Hayden, Horner and Reid.

On March 9, 1955, the Committee held a meeting, at which it was resolved to hear witnesses before the Easter adjournment, and it was further resolved that the Committee recommend that it be empowered to retain the services of counsel, and the services of Mr. A. H. Lieff, Q.C., of Ottawa, were retained.

In order to cover all foreseeable phases of the inquiry the Chairman held numerous conferences with individuals and with the Steering Committee, when it was resolved that the scope of the inquiry be as comprehensive as possible. To this end the Committee decided to hear evidence on all the ramifications of the drug problem including views of the addicts and of society in general. Because of the alarming proportions of the problem in British Columbia, and the amount of publicity given to that area of the problem it was resolved to hold sessions of the Committee in the City of Vancouver. It was felt that by so doing the Committee could bring before it all persons considered to be vitally interested and most closely concerned with the problem. Likewise an opportunity would be afforded to all others in British Columbia who wished to testify before the Committee.

For similar reasons it was decided to hold sessions of the Committee in the cities of Toronto and Montreal. By holding sessions in these three cities it was possible to have described, at first hand, the challenging character and extent of the problem and by so doing it was possible to conclude the sessions of the Committee during the present session of Parliament.

It was also resolved to interview a number of addicts and to visit one or more institutions in which addicts were confined.

The investigation by the Committee was directed to ascertaining the nature and extent of the narcotic drug problem in Canada and the gathering of such information as would enable the Committee to recommend possible solutions to the problem and necessary changes in the law.

On March 15, 1955, the Committee held its first public hearing at the City of Ottawa, and further public hearings were held at Ottawa on March 22, 30, May 11, 17, 20, 25, 27 30 and June 7. Public hearings were held at Vancouver on April 18, 19 and 20, with hearings in camera on the 21st and 22nd. Public hearings were held at Toronto on May 20 and at Montreal on May 27.

These were the first occasions on which any Committee of the Senate of Canada had ever held meetings in centres other than Ottawa.

Invitations to make representations to the Committee were extended to Attorneys General and Ministers of Health of all provinces and with the exception of the Province of British Columbia, all indicated they had no representations to make.

Similar invitations were sent to the Mayors of the cities of Montreal, Toronto, Winnipeg, Calgary, Edmonton, Vancouver and Victoria. Replies in the negative were received from Winnipeg, Calgary and Victoria.

The Committee held seventeen meetings all of which, with the exception of two, were open to the public. The two closed meetings were devoted entirely to hearing the representations of narcotic drug addicts, at the R.C.M.P. Barracks in Vancouver, and at Oakalla Prison Farm in Burnaby, British Columbia. Twenty-one addicts and relatives or friends of addicts were heard at the R.C.M.P. Barracks, and at Oakalla Prison Farm Warden Christie convened a meeting of some 150 addicts in the Chapel of the prison. During the latter meeting addicts made representations to the whole Committee.

Portions of several Committee meetings were closed to the public and were devoted exclusively to matters of procedure and the preparation of the Committee report.

A request was made to have the sessions held in Vancouver televised. It was deemed advisable, however, not to grant such request.

Evidence was adduced from government sources, including federal, provincial, and municipal authorities; from organizations and individuals; a list and classification of the witnesses is set out in Schedule 1 to this report. Representations in the form of briefs, submissions and letters were received from a number of individuals and organizations. All of these representations were carefully considered and analyzed.

Valuable assistance was rendered to the Committee by the Mayors and municipal administrations of the Cities of Vancouver, Toronto, and Montreal and by the Honourable R. W. Bonner, Q.C., Attorney-General of British Columbia. Special mention should be made of valuable assistance rendered by Mr. John A. Hinds, Assistant Chief Clerk of Committees, and Mr. Robert E. Curran, Q.C., Counsel for the Department of National Health and Welfare.

Definition of Drug Addiction

For the purposes of the inquiry the Committee decided to adopt the definition of drug addiction approved by World Health Organization of the United Nations. It is as follows:

Drug addiction is a state of periodic or chronic intoxication, detrimental to the individual and to society, produced by the repeated consumption of a drug (natural or synthetic). Its characteristics include:

1. An overpowering desire or need (compulsion) to continue taking the drug and to obtain it by any means.
2. A tendency to increase the dose.
3. A psychic (psychological) and sometimes a physical dependence on the effects of the drug.

Legislation

The Canadian legislation dealing with narcotic drugs is contained in the Opium and Narcotic Drug Act. R.S.C. 1952, C.201 as amended by R.S.C. 1952, C.325, S.73, 1953-54, C.38, and the regulations thereunder, (as made and established by Order in Council P.C. 1954-1212, effective September 15, 1954).

The purpose of the legislation is, firstly to make narcotic drugs available for medical and scientific purposes through trade and professional channels, and secondly the enforcement side.

By administrative arrangement the R.C.M.P. are responsible for the enforcement on the criminal side of the legislation, and the Department of National Health and Welfare, Division of Narcotic Control is concerned with the importation and legal distribution of drugs in Canada. The officers of the Department of National Health and Welfare work closely with the R.C.M.P.

The Committee desires to express its appreciation to the Honourable Paul Martin, Minister of National Health and Welfare, for his assistance in outlining to the Committee the narcotic drug problem in Canada and for the co-operation given by him and by the officers of his department.

The Committee was favourably impressed with the efficiency of the administration of the Opium and Narcotic Drug Act by the Division of Narcotic Control of the Department of National Health and Welfare, headed by Mr. K. C. Hossick.

The Committee would also like to pay tribute to the Royal Canadian Mounted Police for the efficient manner in which they assist in the enforcement of the Opium and Narcotic Drug Act and for their co-operation and assistance to the Committee.

International Control

Canada has played an important role in international control and is a signatory to all international conventions designed to limit to medical and scientific uses narcotic substances. The Conventions' Agreements and Protocols

under which Canada participates in international control are listed in the evidence. Canadian legislation conforms in all respects with the requirements of the conventions and our international commitments, and from the evidence the Committee concurs with the statement of the Minister of National Health and Welfare that the Canadian legislation is as realistic and effective as the legislation of any country. Canada, as a member of the United Nations, has in keeping with other countries, members of the United Nations organization, agreed to make the legal importations of heroin illegal. The prohibition of heroin came into effect in Canada January 1st, 1955.

Traffic

The evidence indicates that, while Canada maintains excellent domestic control of licit narcotic drugs, international controls have not completely stopped the illicit flow of drugs into Canada.

The availability of drugs and the ease with which quantities of heroin can be secreted and transported makes it almost impossible to completely prevent smuggling of narcotic drugs into Canada across the long Canadian border. Some of the difficulties in denying entrance to illicit drugs have been explained to the Committee by officers of the R.C.M.P. and the evidence of Assistant Commissioner G. B. McClellan and Inspector J. J. Atherton is of special interest. It is the opinion of the Committee there exists in Canada an illicit drug traffic of which, at the present time, about one half is centered in British Columbia.

The illicit traffic seems to follow a complicated but well defined pattern. The traffic commences with the trafficker-importer who sells to a trafficker-wholesaler, who in turn sells to a trafficker-distributor. This is the hierarchy of the traffic and few if any of this class of distributor are addicts. The distributor then sells to:

1. The peddler or pusher who is not an addict.
2. The peddler or pusher who is an addict and who sells drugs to other addicts.

The Minister of National Health and Welfare and the Commissioner of the R.C.M.P. pointed out the extent of profit in the illicit drug trade. By way of illustration, an ounce of heroin has a legal value of approximately \$12.00. An ounce contains $437\frac{1}{2}$ grains, an average dose being $\frac{1}{4}$ grain, or a total of 1,750 doses to the ounce. Almost invariably the drug will be heavily diluted or adulterated, thus multiplying 1,750 doses to a much greater number. With a dose or capsule selling for \$3.00 to \$5.00 in Vancouver, and as high as \$20.00 in Edmonton, the profits are truly enormous.

The profit motive needs no further comment. It is significant therefore that much of the evidence heard by the Committee urged the elimination of the profit motive in the sale of drugs.

Suggestions from witnesses for the accomplishment of this objective ranged from that of the legal supply of free drugs to the total segregation of all criminal addicts and the provision of the death penalty for important traffickers.

Extent of Addiction

Addicts in Canada have been classified as medical, professional and criminal. The latter has been defined in Canada as one who purchases his supply of drugs in the illicit market. It is this group that has given cause for the greatest concern.

Appendices A. to C. to the evidence of the Minister of National Health and Welfare respectively set forth a breakdown of the total addict population in Canada by classes; the criminal addict population by sex and age groups, and by occupation.

These figures indicate that at the present time there are in Canada 515 medical addicts, 333 professional addicts and 2,364 criminal addicts, totalling 3,212. Of the 2,364 criminal addicts, 1,101 are located in British Columbia.

Commissioner Nicholson, in discussing the results of a study made of 2,009 criminal addicts, stated that only 341 of this number were first convicted under the Opium and Narcotic Drug Act, 1,220 were first convicted first for some other offence, and the balance of 478 were addicts with criminal records other than narcotic drug convictions. As was explained by the Commissioner, of the 2,009 cases studied, 1,668 involved people who were very probably criminals before they were addicts.

The Committee is satisfied that there is no juvenile or teenage addiction problem in Canada. Of 2,364 known criminal addicts only twenty-six are under the age of twenty. These were not attending school when they became involved in the drug traffic and were already known to the police for juvenile delinquency.

Drugs of Addiction

The Minister of National Health and Welfare put on the record the drugs of addiction. "Narcotic drugs" are listed in the schedule to the Opium and Narcotic Drug Act. Reference to the schedule at the end of the Act will give the schedule of drugs which the department regards as problems. The drugs so listed come either from natural sources or synthetic.

The natural drugs come from opium, coca leaf or cannabis sativa commonly called hemp or marihuana. Opium produces morphine, heroin and codeine the principal drugs in use. Coca leaf produces cocaine and hemp produces cannabis sativa. Of all these drugs heroin is the one that is the most commonly employed for addiction in Canada.

Marihuana is not a drug commonly used for addiction in Canada, but it is used in the United States and also in the United Kingdom by addicts.

No problem exists in Canada at present in regard to this particular drug. A few isolated seizures have been made but these have been from visitors to this country or in one or two instances from Canadians who have developed the addiction while being in other countries.

The question of barbiturates was discussed. They are not narcotic drugs. They are covered insofar as use is concerned under the Food and Drugs Act.

The Committee is of the opinion that the present strict control of these drugs should be continued and that a careful watch be kept of any unwarranted increase in their use, in order to prevent the abuse of such barbiturates.

Enforcement

The R.C.M.P. maintains drug squads at those centres where attention is indicated, reinforced as necessary by men from general duty and other specialist details. Most major Municipal Police Forces maintain special Narcotic Drug Squads which work closely with the R.C.M.P. The R.C.M.P. concentrates particularly on the investigation of traffickers.

The Committee finds that police co-operation is relatively good in most cities of Canada. Much of the co-operation depends on the personalities involved. Continued co-operation at all levels of enforcement by all police bodies with the R.C.M.P. appears to be essential and, where necessary, directives to this effect are urged.

The statement of Vancouver Chief of Police, Walter Mulligan, that sixty percent of the major crimes in Vancouver could be traced to narcotic drugs was contradicted by other responsible witnesses who testified that drug addicts seldom, if ever, engage in major or violent crime.

The statement made that shoplifting by addicts was responsible for most of the thefts from stores in Vancouver, amounting, it was stated, to millions of dollars annually, was not borne out by the evidence. The Hudson's Bay Company, a large department store chain, which operates six stores in Western Canada, advised the Committee that they have no way of knowing the exact amount of their losses due to actual shoplifting, but they did report that stock shortages in Vancouver due to clerical errors, internal theft, as well as shoplifting, are not any higher than the average pertaining in their six stores.

Treatment Proposals

Suggestions for treatment ranged all the way from the legal supply of drugs to the total segregation of all criminal addicts. The Committee considered proposals to alleviate the drug problem that was submitted to it. These proposals included such matters as (a) the removal and segregation of all convicted addicts to an institution, far removed from any area of general population, preferably on an island, for long periods of time, coupled with some system of parole, where rehabilitation was indicated; (b) establishment of a treatment centre far removed from cities, with provision for compulsory confinement or isolation and control of an addict over a number of years, such an institution should emphasize mental care, complete rehabilitation and training for useful occupation; (c) provision for withdrawal treatment in general hospitals, establishment of a rehabilitation residence for men, foster home care for women; (d) narcotic clinics; (e) the British system; (f) community action; (g) education; (h) group therapy, such as is carried on by Alcoholics Anonymous and Narcotics Anonymous.

The Committee in making special reference to certain of these proposals also commends for careful study the evidence of those witnesses who spoke on the question of the treatment of drug addicts.

Narcotic Clinics

The Committee heard considerable evidence with respect to narcotic clinics and ambulatory treatment. The vast preponderance of responsible evidence on this subject, both oral and written, leads the Committee to conclude that the establishment of such clinics or the provision of any other legalized supply of drugs for the purpose merely of supporting addiction would be a retrograde step. The Committee is therefore strongly of the opinion that the narcotic drug problem cannot be solved by the creation of government clinics where addicts could obtain their supplies.

The Committee unanimously rejects any proposal designed to provide legal supplies of drugs to criminal addicts. The Committee was supported in this decision by evidence that the Narcotic Drug Commission of the United Nations at its tenth session has resolved that "in the treatment of drug addiction methods of ambulatory treatment (including the so-called clinic method) are not advisable".

British System

The Committee heard frequent reference to the so-called "British System" and various witnesses urged its adoption in Canada. Consequently the Committee arranged to obtain firsthand information about the law pertaining to narcotic drugs in the United Kingdom. It was privileged to hear a comprehensive statement from Mr. J. H. Walker, United Kingdom Delegate to the United Nations Narcotic Commission. Mr. Walker explained the law relating to dangerous drugs in detail. He stated that dangerous (narcotic) drugs in the United Kingdom are subject to a wide degree of control of the exacting standards demanded by the international agreements to which the United

Kingdom, in common with Canada, is a party. He also told the Committee that the indiscriminate administration of narcotic drugs to addicts is not now, and never has been, a feature of United Kingdom policy. A perusal of Mr. Walker's evidence would be most valuable to anyone interested in the British system.

The Committee was also privileged to hear evidence on this subject from Dr. A. W. MacLeod, Assistant Director, Montreal Hygiene Institute and Assistant Professor of Psychiatry, McGill University. Dr. MacLeod had experience in the treatment of drug addicts in Britain gained while he was assistant director of an in-patient psychiatric unit attached to one of the training hospitals at London University. He stated that the dangerous drug Inspectorate of the British Home Office was strongly opposed to any line of action that would allow a known addict to continue his addiction.

From the evidence it appears that there never has been a serious drug problem in the United Kingdom, and that the situation there is not comparable with that of Canada.

French System

The Committee regrets that Mr. Charles Vaille, the Chairman of the United Nations Narcotic Commission and the French delegate to that Commission, was unable to appear before the Committee. His co-operation in submitting a brief in explanation of the French system is greatly appreciated.

Education

The Committee considered the question of education against the use of narcotic drugs and is of the opinion that while educational programs may usefully be established for professional groups, for parent teacher associations, and for adult groups generally, such program should not be used where they would arouse undue curiosity on the part of impressionable persons or those of tender years. The Committee's view is supported by the Narcotic Committee of the United Nations who recommend against any such educational program. Lecture material especially prepared by the Division of Narcotic Control and containing information respecting the economic and social factors of drug addiction has been presented regularly to Medical and Pharmaceutical Associations, Schools of Nursing, and undergraduate societies in colleges of Medicine, Pharmacy and Nursing. This form of education should be continued.

The Committee recommends the improvement and expansion of mental health programs in our schools in the hope that variations from acceptable behaviour may be detected and treated before the opportunity for addiction to drugs has been presented.

Training Personnel

The Committee was gratified to hear evidence with respect to the high quality of narcotic drug research carried on by the Department of National Health and Welfare. Some of such research has attracted international attention. It may well be that Canada may become a narcotic drug research centre for students from other countries.

The Committee is of the opinion that the Government of Canada consider the possibility of making available bursaries or scholarships for the purpose of training medical, probation and rehabilitation personnel at institutions wherever such training is available.

Narcotics Anonymous and Alcoholics Anonymous

The Committee heard evidence that group therapy was of considerable advantage in the treatment of drug addicts. Two organizations which provide

opportunities for group therapy are Alcoholics Anonymous and Narcotics Anonymous. Because there are many common factors in drug addiction as well as in alcoholism, both Alcoholics Anonymous and Narcotics Anonymous hold some promise for the rehabilitation of drug addicts. Both of these organizations aim to develop in the individual a desire to be cured.

Alcoholics Anonymous has been operating with commendable success for some time and beginnings have been made to establish chapters of Narcotics Anonymous. Of particular interest in this connection was the evidence of Dr. A. W. MacLeod of the John Howard Society of the Province of Quebec, and Dr. L. P. Gendreau, Deputy Commissioner of Penitentiaries.

One of the difficulties encountered in the establishment of Narcotics Anonymous was the difficulty in finding a sufficient number of addicts who were abstinent from the use of drugs for a sufficient length of time to provide a nucleus for successful group therapy. The Committee desires to encourage those engaged in this work and to express the hope that their efforts will meet with success.

Community Action

Any successful program for the prevention and treatment of drug addiction will require concerted community social action to remove from our cities those areas in which drugs are available, to provide adequate opportunity for youth and the emotional, social atmosphere which follows general rehabilitation efforts on behalf of treated drug addicts. There is an urgent need for communities to make concerted all-out efforts to eradicate conditions that breed drug addiction.

By the same token such groups as P.T.A., church groups, welfare councils, schools, hospitals, police, recreational bodies and employers and the public generally, will need to use their joint and several skills to readjust the lives of former addicts in order to again fit them into an ordered society. The importance of this is emphasized in the recommendations that are made in this report for a treatment program.

Research in British Columbia

The Committee took special notice of the research now being carried on at the University of British Columbia, under the direction of Dr. Geo. H. Stevenson. The Committee wishes to express its thanks to Dr. Stevenson for his efforts and for much important information given to the Committee on the subject of narcotic drug addiction.

PART 2

CONCLUSIONS AND RECOMMENDATIONS

Objectives

A solution of the narcotic drug problem involves the elimination of drug addiction, the suppression of the drug traffic and the prevention of an increase in the drug addict population.

Involved in these objectives is, of course, the protection of society at large against the evils of narcotic drugs.

Size of Problem

As previously stated the total known drug addict population in Canada is 3,212, of whom 2,364 are criminal addicts. Of the 2,364 approximately one-half are located in the City of Vancouver. The City of Montreal which is the largest city in Canada, has a total criminal addict population of under 200

and the City of Toronto an addict population of under 400 with, according to the evidence, a large number of these being inactive or in other words as not having recently come to the attention of the enforcement authorities.

Pattern of Drug Addiction

The Committee heard evidence from many expert and qualified witnesses concerning the kind of people who make up the criminal addict population of Canada, something of their background and, in addition, the Committee saw a large number of these people. Their sordid pattern of development shows a considerable degree of similarity.

There is frequently evidence of broken homes, poor environment, lack of parental control and discipline, and the absence of religious training. This background leads to social deviation, juvenile delinquency, crime and eventually to drug addiction through association with other drug addicts.

The evidence of medical authorities was to the effect that drug addiction is not a disease in itself. It is a symptom or manifestation of character weaknesses or personality defects in the individual. The addict is usually an emotionally insecure and unstable person who derives support from narcotic drugs.

The Committee was gravely concerned to learn that relatively few cases could be authenticated where drug addicts, while out of custody, had been successful in abstaining from the use of drugs for any lengthy period of time.

The complications and difficulties in the successful treatment of drug addiction, having regard to the pattern of development of the addict and his almost invariable criminal tendencies, cannot be too heavily stressed.

Jurisdictional Responsibilities

The Committee desires to emphasize that the solution of the problem of addiction, which of itself is of great complexity, is further complicated by the division of federal and provincial constitutional responsibilities.

In viewing the problem, it is necessary to distinguish the measures which the federal government can properly undertake by its legislation and the measures which constitutionally are of provincial concern.

The suppression of the illicit distribution and use of drugs is within the responsibility of the federal government. This, amongst other things, is the aim and purpose of the Opium and Narcotic Drug Act which provides for the legal distribution and use of drugs and the protection of society against the evils of the drug traffic and drug addiction.

The treatment of illness is a matter which comes within the responsibility of provincial authorities as, for example, mental illness and tuberculosis. Drug addiction is considered by medical and social authorities to be a form of illness and the treatment of it as such is likewise within the jurisdictional responsibility of the provinces and of the communities therein.

A number of the provinces have recognized this responsibility in terms of special legislation for the treatment of drug addiction. The Provinces of Manitoba and Nova Scotia, as far back as the middle twenties, enacted special legislation entitled "The Narcotic Drug Addicts Act". The Province of Ontario has included in its Mental Hospitals Act and the Province of New Brunswick in its Provincial Hospital Act, provision for the committal and treatment of drug addicts. The Province of British Columbia, however, where the incidence of drug addiction is the highest, has no legislation in this regard and it was stated to the Committee that under the general hospital insurance plan in that province drug addiction was not a condition for which hospital treatment was authorized.

None of the provinces in Canada, however, have provided special institutional treatment facilities for drug addiction as such.

Situation in Vancouver, Montreal and Toronto

The addict population in the City of Vancouver was estimated to be from 1,100 to 1,500 and of this number slightly in excess of 300 are currently in jail or penitentiary. The remaining addicts at large in the city, according to the evidence, must purchase drugs once or more daily and in order to obtain the funds to do so engage in petty crime, such as shoplifting, thievery and, in the case of female addicts, in prostitution. These addicts have no gainful employment and support their addiction by vice and petty crime. They must, therefore, violate daily not only the Opium and Narcotic Drug Act in their illegal purchase and possession of drugs, but also the Criminal Code of Canada.

The Committee could not help but be disturbed by this large concentration of drug addicts and the apparent freedom with which they are able to congregate in the heart of the City of Vancouver. These people are known to engage in crime, including prostitution, and are without gainful employment of any kind. The Committee is not able to understand why the provisions of the Criminal Code dealing with vagrancy, prostitution and living off the avails of prostitution cannot be more effectively invoked to uproot and break up this concentration.

The Committee, in emphasizing this aspect of the situation, points out that the enforcement of the Criminal Code in the City of Vancouver is not a responsibility of the R.C.M.P., but is wholly a responsibility of the city police authorities.

The R.C.M.P. are concerned with the enforcement of the Opium and Narcotic Drug Act and in this connection concentrate essentially on the apprehension and conviction of drug traffickers.

The drug addict population, as already pointed out, are primarily criminal, engaged in crime daily apart from the violations of the Opium and Narcotic Drug Act. These people are, therefore, an enforcement responsibility of the city and the municipal authorities and a solution of the problem which they present requires much more than the enforcement of the Opium and Narcotic Drug Act. It requires vigorous police and community action if this evil social condition is to be successfully removed.

In contrast to the situation in the City of Vancouver, the Committee was impressed with the comparable drug situation in the Cities of Montreal and Toronto. In both of these cities the authorities now report a drug situation of relatively small proportions and one which is apparently under fairly good control.

The Committee is of the opinion that more vigorous effective enforcement of all pertinent law holds the answer to much of the problem in the City of Vancouver.

Treatment of Addiction a Provincial Responsibility

After a most careful and exhaustive examination of the evidence and of all the factors involved in treatment, the Committee is strongly of the opinion that the recognition of drug addiction as a treatment responsibility, with the provision of facilities therefor by provincial authorities, is long overdue.

The Committee in pointing out the responsibility of provincial authorities for treatment, does not minimize the difficulties that are presented nor the fact that a great number of drug addicts offer little or no promise for successful treatment. These difficulties would not in the opinion of the Committee justify the continued failure to provide treatment procedures and facilities.

The drug problem in Canada is essentially confined to the three provinces of Quebec, Ontario and British Columbia, of which the Province of British Columbia has the largest concentration of drug addicts and, therefore, the greatest problem. As was pointed out, there is no legislation nor are there facilities in that province for the treatment of drug addiction.

The Minister of National Health and Welfare in his statement to the Committee pointed out that he had gone on record with all of the provinces of Canada in drawing attention to the distinction between federal and provincial responsibilities in the matter of the drug problem. He pointed out that the federal government had offered to assist in any way that it could, within the limits of its authority and responsibility, in helping to find a solution to the problem of drug addiction.

As evidence of interest in the problem, Mr. Martin stated to the Committee that under date of December 3, 1954, he had offered to consider the availability to the Province of British Columbia of the federal Quarantine Station at William Head on Vancouver Island for use by the province as a treatment centre.

He also indicated to the provincial authorities in making such offer that the federal government would be prepared under the National Health Program to see whether or not financial assistance might be given to the renovation of such premises to make them more suitable for use as a treatment centre. No evidence was given to the Committee as to whether the offer was acceptable to the province.

The Committee makes specific reference to this proposal, because it is apparent that treatment of drug addiction, insofar as the treatment of a drug addict can be effective, depends upon the acceptance by provincial authorities, and particularly the Province of British Columbia, of responsibility for treatment with the provision of whatever facilities and legislative measures are required in that connection.

The evidence of many witnesses recommended the compulsory segregation and isolation of all addicts for long periods of time for the purpose of treatment and possible rehabilitation.

By using its constitutional powers, any province could pass the necessary legislation providing for the committal on a compulsory or voluntary basis, of drug addicts to an appropriate treatment institution in the same manner as is being done now for those in need of treatment for a mental condition.

In considering the various suggestions for treatment, it will be appreciated that the majority of addicts not only have known criminal records, but have, as well, character disorders, or personality disturbances which will require institutional treatment. Evidence about proposed treatment indicated that such treatment should include humane, supported withdrawal, medical treatment, post-discharge control, including long-term probation, coupled with the right of immediate return to the institution in the event of relapse.

It was also submitted that if treatment cannot be provided for all addicts, an effort should be made to treat at least the young ones, or those whose prognosis is good. It appears necessary to segregate young addicts from older addicts.

In commenting upon the responsibility of provincial authorities for the treatment of drug addiction, the Committee again stresses the need for community and public support of an addict who has undergone treatment and who desires to re-establish himself in society. It is apparent to the Committee that institutional treatment can do only so much for an addicted person.

The Committee draws attention to the evidence of a number of witnesses who strongly advocated the need for follow-up and supervisory facilities for addicts who had undergone treatment, to prevent a return to drugs or to former bad associates or habits.

To make treatment a practical possibility for those addicts who may offer some promise, the Committee would hope that provincial agencies, community agencies, voluntary agencies and the public generally, would do everything possible to assist in the acceptance into society of addicts who had been treated, including an opportunity of useful and gainful employment.

The Committee, therefore, strongly recommends the provision of suitable treatment facilities for drug addicts, and recommends for careful study by provincial authorities the evidence of those witnesses who discussed treatment, and particularly that of Dr. Harris Isbell who is possibly one of the world's foremost authorities on the subject.

Federal Responsibility

As has been pointed out, the responsibility of the federal government by its legislation is limited to the legal distribution of narcotic drugs for medical and scientific purposes and the suppression of the illicit use and distribution of those drugs. These measures are necessary for the protection of society.

The Committee points out that it is not within the constitutional authority of the federal government to assume responsibility for treatment of drug addicts nor to enact the kind of legislation necessary in that connection. This legislation would need to include the compulsory treatment of addiction, the legal supervision and control over the individual during treatment and the right of control of an individual following treatment to prevent his return to the use of drugs, former associations or habits. These are considered to be matters beyond the competence of the federal government.

According to the evidence of Dr. L. P. Gendreau, Deputy Commissioner of Penitentiaries, there are at the present time 369 criminal addicts in federal penitentiaries. These include both male and female criminal addicts.

It is pointed out that the kind of people who are sentenced to penitentiaries, for the most part, have a long and sordid record of crime behind them. These people are criminals from whom society is entitled to be protected. Their violations of the law coupled with their criminal backgrounds are such as to require their imprisonment for lengthy periods of time. It follows, therefore, that any possibility for treatment of addicts who are sentenced to penitentiaries will offer considerably less hope than would be the case of the early offender or the addict beginner. The best hope of successful treatment of a number of people who eventually come to the attention of the penitentiary authorities would seem to lie in early rehabilitative and corrective measures.

The Committee appreciates the difficult problem presented by the kind of criminal addicts who are sentenced to penitentiaries. The Committee, however, suggests that the penitentiary authorities might give further consideration to the particular problems presented by criminal addicts in terms of possible segregation, treatment including specialized training and rehabilitation and other measures necessary in view of the special problems which addiction superimposes.

Penalties for Trafficking

As already pointed out the responsibility of the federal government is essentially concerned with the enforcement of the Opium and Narcotic Drug Act to eliminate the drug traffic and to prevent the spread of the contagion of addiction. It is felt by the Committee that vigorous enforcement, more severe penalties and a realistic recognition by judicial and other authorities of the extent and nature of the evil will do much to reduce the incidence of drug addiction in Canada.

The Committee notes with interest the evidence of Commissioner Harry J. Anslinger, Commissioner of Narcotics in the United States, before a Special Committee of the United States Senate wherein he pointed out that in areas where low sentences were imposed, the drug problem substantially increased and in areas where there was strict enforcement with heavy sentences the drug problem showed a commensurate decrease.

The Opium and Narcotic Drug Act provides penalties of up to fourteen years imprisonment for trafficking and for possession of drugs for the purpose of trafficking. The Act, properly, does not draw a legal distinction between the addict-trafficker and the non-addict-trafficker. The elimination of trafficking in drugs is the goal of enforcement and the attainment of this goal is not assisted by artificial distinctions between motives for trafficking.

The Committee heard considerable evidence regarding the heavy profits of the drug trafficker and various suggestions were advanced as to how this profit could be taken out of the traffic.

It is the considered opinion of the Committee that the most effective way of taking the profit out of the drug traffic is by making all trafficking, in terms of penalties, a most hazardous and costly undertaking to the trafficker.

The non-addict-trafficker, who is sometimes referred to as the "higher up" must depend upon a large number of agents or distributors to peddle the drugs which he imports but with which he seldom comes into contact. The imposition of heavy compulsory minimum sentences for trafficking is suggested as a deterrent to these hireling peddlers or pushers of the "higher up". If the "higher up" is not able to find a ready supply of assistants to distribute drugs to the addict population the availability of drugs to addicts may be a possible minimum.

The Committee considers that the penalties for trafficking regardless of purpose, motive or amount irrespective of whether the trafficker is or is not an addict, should be made more severe, with a compulsory lengthy minimum sentence and an increased minimum for a second or subsequent offence and possibly a maximum of life imprisonment.

In advocating the increase of penalties the Committee intends that this should serve as a clear warning to all who are addicted that if they engage in the distribution of drugs in any quantity for any purpose and regardless of their motives, they can expect to be dealt with as traffickers and given heavy penalties. It is the considered view of the Committee that this will act as an effective deterrent to a large number of drug addicts who might be tempted to assist in distribution and with their elimination as distributors the problem of the "higher up" in getting rid of his drugs is made more difficult.

The Committee in urging severe penalties for all traffickers does not of course minimize the necessity to continue intensive enforcement in an effort to eradicate the "higher up" from this evil market.

The Committee recognizes that illicit drugs are in the first instance imported into Canada by trafficker-importers. These trafficker-importers, however, seldom if ever physically carry into Canada the drugs for which they are responsible. This transportation is almost invariably done by agents or hirelings for a financial reward or perhaps for a share in the drugs. The Committee strongly recommends the establishment of a special offence with a penalty of the utmost severity for the illicit importation of drugs into Canada. The Committee in making this suggestion feels that a severe penalty may act as an effective deterrent to an individual in smuggling drugs into Canada for the profit of a "higher up".

Evidence was given to the Committee of the skill and efficiency by which traffickers and distributors endeavour to avoid detection and conviction.

The trafficker-importer as mentioned, seldom has physical possession of the drugs for which he is responsible and he is rarely addicted to their use.

The trafficker-distributors again are seldom addicted and they too, endeavour to avoid physical contact with the drugs that they distribute. The difficulty, therefore, of apprehending the trafficker-importer or the trafficker-distributor in possession of drugs is apparent. The efforts of the enforcement authorities as pointed out by the Commissioner, R.C.M. Police, in apprehending and convicting since 1949, 36 major traffickers who received penalties ranging from two to twenty-eight years' imprisonment is, in the opinion of the Committee, worthy of commendation.

The apprehension and conviction of the street peddler is one of difficulty. Enforcement has taught the peddler to be wary of strangers. He uses every device to plant drugs in convenient caches and thus in completing a transaction, avoids the risk of selling to an undercover agent. The committee therefore suggests that special attention be given by the authorities to the possibility of the facilitation of proof of trafficking at all levels, having regard to the skill and cunning displayed by traffickers and distributors, illustrations of which were given by the enforcement authorities.

It is considered by the Committee that the evil of trafficking to be eliminated requires the most effective sanctions that can be devised and the provision of such facilities in the matter of proof of trafficking as are necessary to combat the traffic.

The Committee heard evidence from one of Canada's most experienced prosecutors under the Opium and Narcotic Drug Act, with respect to the difficulty in getting proper evidence to lay before the Court in cases of traffic conspiracy. He cited Sections 15 and 18 of the Opium and Narcotic Drug Act which facilitate proof in charges under that Act but stated that these were not available to the Crown in prosecutions of conspiracy to commit an indictable offense under the Opium and Narcotic Drug Act. The Committee recommends a study of the Act with a view to amending legislation to overcome the difficulty.

At this point it might be stated that in order to strengthen the hands of enforcement agencies, in addition to changes in the Opium and Narcotic Drug Act, amendments are indicated, to the Juvenile Delinquents Act and the Criminal Code of Canada.

The Committee recommends consideration of amendments to Section 33 (1) of the Juvenile Delinquents Act which would make association of an addict with a juvenile, *prima facie* evidence of contributing to delinquency. It must be borne in mind that the drug addict carries a communicable condition and merely by associating with a non-addicted juvenile is conducting himself in a manner likely to make such child a juvenile delinquent.

Since trafficking has become a mobile industry courts should withdraw driving privileges for long periods of time from all those convicted of offences under Section 4 (3) of the Opium and Narcotic Drug Act. To give them authority so to do would require an amendment to Section 225 (1) of the Canadian Criminal Code adding the offences set forth in Section 4 (3) of the Opium and Narcotic Drug Act.

In advocating more severe and increased penalties for trafficking with a compulsory minimum, the Committee does not do so in criticism of the length of sentences that have ordinarily been meted out to traffickers. The Committee does so having regard to the elimination of street distributors and the discouragement of addicts to engage in the trafficking or transportation of drugs. There will thus be a clear and unequivocal warning to all addicts of the consequences which they can expect if they choose for any reason to become involved in the distribution of drugs.

Heavy penalties and intensified enforcement against street drug peddlers are therefore strongly urged, and in this way the Committee believes that the heavy profit motive will most effectively be taken out of the drug trafficking.

The Committee desires to express its appreciation to all witnesses who appeared before the Committee or supplied briefs. Particular mention should be made of Chief Constable W. H. Mulligan, Vancouver, B.C., Chief Constable M. E. Anthony, Edmonton, Alta., Mr. John W. The said Report was then read by the Clerk, as follows:—

WEDNESDAY, 29th June, 1955.

The Special Joint Committee of the Senate and the House of Commons on Capital and Corporal Punishment and Lotteries begs leave to present the following as its

SECOND REPORT

Establishment of Committee.

On January 14, 1955, the House of Commons resolved to establish a Joint Committee in effect to resume the studies and continue the enquiries initiated by the corresponding Joint Committee at the previous Session of Parliament. On January 26, 1955, the House of Commons appointed its membership to the Committee.

On January 25, 1955, the Senate united with the House of Commons in the establishment of the Committee and on February 1, 1955, appointed its membership.

Terms of Reference.

The Orders of Reference from both Houses, here consolidated, were as follows:

"That a Joint Committee of both Houses of Parliament be appointed to enquire into and report upon the questions whether the criminal law of Canada relating to (a) capital punishment, (b) corporal punishment or (c) lotteries should be amended in any respect and, if so, in what manner and to what extent;

That seventeen members of the House of Commons and ten members of the Senate be members of the Joint Committee on the part of each House; that the quorum of the said Committee be nine members thereof; and that Standing Order 65 of the House of Commons be suspended in relation thereto;

That the Committee have power to appoint, from among its members, such subcommittees as may be deemed advisable or necessary; to call (send) for persons, papers and records; to sit while both Houses are sitting and to report from time to time;

That the Minutes of the Proceedings and the Evidence of the Special Joint Committee appointed last session (First Session, Twenty-second Parliament) to enquire into and report upon the foregoing questions, together with all papers and records laid before it, be referred to the said Committee;

That the Committee have power to print such papers and evidence from day to day as may be ordered by the Committee for the use of the Committee and of Parliament, and that Standing Order 64 of the House of Commons be suspended in relation thereto; and

That the Committee have power to engage the services of Counsel."

Membership.

The membership of the Committee on appointment was as follows:

The Senate (10): The Honourable Senators Aseltine, Bouffard, Farris, Fergusson, Hayden, Hodges, McDonald, Roebuck, Veniot, and Vien. (On March 1, 1955, the Honourable Senator Tremblay was appointed to the Committee in substitution for the Honourable Senator Bouffard).

The House of Commons (17): Miss Bennett, Messrs. Boisvert, Brown (Brantford), Brown (Essex West), Cameron (High Park), Fairey, Garson, Leduc (Verdun), Lusby, Mitchell (London), Montgomery, Murphy (Westmorland), Shaw, Mrs. Shipley, Messrs. Thatcher, Valois, and Winch. (On February 21, 1955, Mr. Johnston (Bow River), was appointed to the Committee in substitution for Mr. Shaw, and on March 22, 1955, Mr. Thomas was appointed to the Committee in substitution for Mr. Johnston (Bow River)).

Organization and Summary of Meetings.

The Committee held its first sitting for preliminary organization on February 2, 1955, when the Honourable Senator Salter A. Hayden and Mr. Don. F. Brown, M.P., the Joint Chairmen of last session's Committee, were again elected Joint Chairmen. At that meeting, the Committee also appointed a Subcommittee on Agenda and Procedure and again retained the services of Mr. D. G. Blair, Barrister and Solicitor of Ottawa, as Counsel to the Committee. At its second meeting, held on February 8, 1955, the Committee adopted its general procedure for future meetings. Commencing on February 10, 1955, the Committee met approximately twice weekly, except during the Easter Recess of Parliament, until May 12, 1955, during which period the Committee held 22 sittings devoted almost entirely to taking evidence. The Committee of last session held 27 such sittings. All hearings were held in open session, excluding *in camera* hearings for medical evidence on alternative methods of executions, evidence of the executioner on hanging, and evidence taken by Counsel from former inmates of penal institutions who had undergone corporal punishment. The evidence of the first two *in camera* hearings has been printed as taken but the evidence of the inmates has only been printed in summarized form. In addition, where the deliberations of the Committee related to procedural and administrative matters, portions of those meetings were conducted in private session. After May 12, 1955, the Committee held 5 sittings in private session devoted entirely to its methods and procedures of summarizing and analyzing all evidence taken during both sessions, including the question of a report to Parliament. In all, at this session the Committee

held 29 meetings and its Subcommittee on Agenda and Procedure met 14 times. The Committee of last session held a total of 30 meetings and its subcommittee met 17 times.

Sources of Evidence.

During the course of the enquiries by this and last session's Committees, evidence was obtained on all three subjects from the sources listed in an Appendix to your Committee's Minutes of Proceedings and Evidence, No. 21. In addition, miscellaneous representations on all three subjects were received from many individuals and organizations in the form of letters, resolutions, petitions and briefs which were examined and analyzed, along with other reference material obtained through research, for the best possible evidence and for further sources of information.

Your Committee very much appreciated this material without which some aspects of its enquiries may have been overlooked or minimized.

At this session your Committee printed evidence from 60 individuals and 10 organizations including several of the provincial attorneys-general. The Committee of last session printed evidence from 40 individuals and 15 organizations including several of the provincial attorneys-general.

Approach to and Method of Enquiry.

Your Committee and its predecessor recognized early in their proceedings that public opinion was a major factor to be considered in deciding the three issues of capital punishment, corporal punishment and lotteries. It was felt that an extensive and fair coverage of the work of this Committee by news agencies would lead to a better informed public opinion and would assist your Committee in its approach to its inquiries. The numerous editorials, articles, and broadcasts during the past two years are evidence of the co-operation received. These agencies also assisted immeasurably in bringing to the attention of the public and organized bodies the Committee's desire to obtain their views.

The preceding Committee had given consideration to the possibility of completing the hearings of evidence on one subject before proceeding to the next or at least limiting each hearing to one subject. However, some witnesses wished to give evidence on all three subjects and others had difficulty in finding time to appear and, accordingly, it was decided to hear evidence in an order that would meet the convenience of witnesses.

Your Committee also had considered obtaining authority to hold hearings across Canada and to visit certain institutions. However, the information required was obtained from witnesses who appeared voluntarily and from selected experts called by the Committee thereby making it unnecessary to travel beyond the seat of government.

Appreciation of Assistance.

The Committee wishes to record its gratitude to those individuals, organizations, agencies and departments of the federal and provincial governments that made oral or written representations or in other ways assisted your Committee in its inquiries. In respect to its legal and secretarial assistance, the Committee was very fortunate that these duties were again performed by the Counsel and Clerk who so capably and energetically served last year's Committee.

Interim Recommendations.

The evidence for both sessions has been completely summarized but, because of lack of time, your Committee has not been able to prepare a comprehensive final report formulating conclusions and making recommendations relating to the many aspects involved in all three questions of capital punishment, corporal punishment, and lotteries.

Your Committee accordingly recommends that another Joint Committee be established early in the next session of Parliament, with the same powers and membership, to complete a final report on the three questions of capital and corporal punishment and lotteries.

A copy of the Committee's Minutes of Proceedings and Evidence taken at this session is appended, together with the Minutes of Proceedings and Evidence of last session's corresponding Committee which were referred to your Committee.

All of which is respectfully submitted.

The Honourable Senator McLean, from the Standing Committee on Canadian Trade Relations, presented the following Report.

The said Report was then read by the Clerk, as follows:—

WEDNESDAY, July 13, 1955.

The Standing Committee on Canadian Trade Relations begs leave to report as follows:

1. Pursuant to the Order of Reference dated February 24th last, whereby your Committee was authorized to enquire into and report on the most practical steps toward further implementation of Article 2 of the North Atlantic Treaty, your Committee has heard submissions from two leading members of the Food and Agriculture Organization of the United Nations.

2. The submissions made during this session of Parliament as well as during the previous two sessions have made your Committee conscious of the widespread interest being shown in other countries, as well as in Canada, in the subject matter under consideration and a genuine desire on the part of member countries in the North Atlantic Treaty Organization for further integration on an economic basis.

3. Your Committee hoped that during this session of Parliament it would have been possible to complete its hearings and submit a final report for the consideration of this honourable House. However, a careful analysis must be made of the submissions by various groups, which will involve a concentrated study on the part of a person or persons qualified to assist the Committee in the preparation of its recommendations.

4. Your Committee, therefore, is desirous that during the next session of Parliament your Canadian Trade Relations Committee be authorized to complete its work under the Order of Reference. Your Committee also hopes that the basic work will have been achieved during the intervening period between the sessions and that its final submissions may be made to Parliament at the earliest possible moment during its next session.

All which is respectfully submitted.

A. NEIL McLEAN,
Chairman.

Ordered, That the said Report be taken into consideration to-morrow.

A Message was brought from the House of Commons by their Clerk with a Bill (510), intituled: "An Act for granting to Her Majesty certain sums of money for the public service of the financial year ending the 31st March, 1956", to which they desire the concurrence of the Senate.

The said Bill was read the first time.

The Honourable Senator Macdonald, P.C., moved that the said Bill be now read the second time.

After debate, and—

The question being put on the said motion, it was—
Resolved in the affirmative.

The said Bill was then read the second time.

The Honourable Senator Macdonald, P.C., moved that the said Bill be now read the third time.

The question being put on the said motion, it was—
Resolved in the affirmative.

The said Bill was then read the third time.

The question was put whether this Bill shall pass.
It was resolved in the affirmative.

Ordered, That a Message be sent to the House of Commons to acquaint that House that the Senate have passed this Bill.

With leave of the Senate,

Ordered, That the document entitled "Traffic and Transportation Plan for Ottawa, Canada" prepared by Wilbur Smith and associates for the city of Ottawa, be obtained and when received placed with the officials of the Senate, who receive documents that are tabled.

The Honourable the Speaker *pro tem* informed the Senate that a communication had been received from the Secretary to the Governor General.

The said communication was then read by the Honourable the Speaker *pro tem*, as follows:—

OFFICE OF THE SECRETARY TO THE GOVERNOR GENERAL

28th July, 1955.

Sir,

I have the honour to inform you that the Hon. Patrick Kerwin, Administrator of the Government of Canada, will proceed to the Senate Chamber today,

the 28th July, 1955, at 12:45 o'clock p.m., for the purpose of proroguing the Second Session of the Twenty-second Parliament.

I have the honour to be,
Sir,
Your obedient servant,

J. F. DELAUTE,
Secretary to the Governor General.
(Administrative)

The Honourable
The Speaker of the Senate,
Ottawa.

Ordered, That the said communication do lie on the Table.

The Senate adjourned during pleasure.

1:55 p.m.

After a while the Honourable Patrick Kerwin, Chief Justice of Canada, in his capacity as Administrator of the Government of Canada, having come and being seated upon the Throne—

The Honourable the Speaker *pro tem* commanded the Gentleman Usher of the Black Rod to proceed to the House of Commons and acquaint that House that:—

“It is the pleasure of His Excellency the Administrator of the Government of Canada that they attend him immediately in the Senate Chamber”.

The House of Commons being come,

The Clerk read the titles of the Bills to be assented to, as follows:—

An Act to amend the Radio Act.

An Act to amend the Prairie Farm Assistance Act.

An Act to amend the Income Tax Act.

An Act to amend the Excise Tax Act.

An Act to amend the Income Tax Act, the Railway Act and the Tariff Board Act in respect of salaries of certain public officials.

An Act to amend the Transport Act.

An Act to amend the Customs Tariff.

An Act to amend the Defence Production Act.

An Act to amend the St. Lawrence Seaway Authority Act.

An Act for the relief of Donald John McGillivray.

To these Bills the Royal Assent was pronounced by the Clerk of the Senate in the following words:—

“In Her Majesty’s name, His Excellency the Administrator of the Government of Canada doth assent to these Bills”.

The Honourable the Speaker of the Commons then addressed His Excellency the Administrator of the Government of Canada, as follows:—

“May It Please Your Excellency:

The Commons of Canada have voted certain supplies required to enable the Government to defray the expenses of the Public Service:

In the name of the Commons, I present to Your Excellency the following Bill:—

An Act for granting to Her Majesty certain sums of money for the public service of the financial year ending the 31st March, 1956.

To which Bill I humbly request Your Excellency's assent.”

After the Clerk had read the title of the Bill,—

To this Bill the Royal Assent was pronounced by the Clerk of the Senate in the following words:—

“In Her Majesty's name, His Excellency the Administrator of the Government of Canada thanks Her loyal subjects, accepts their benevolence and assents to this Bill”.

After which His Excellency the Administrator of the Government of Canada was pleased to close the Second Session of the Twenty-second Parliament of Canada, with the following Speech:—

“Honourable Members of the Senate:

Members of the House of Commons:

Since we first met earlier this year there has been considerable evidence that the policies of the free nations to combine their strength in order to deter any threat from a potential aggressor have been successful. My Ministers believe that the more encouraging signs of international harmony are proof of the wisdom of the measures thus taken in co-operation with other democracies. While continuing to support the United Nations and to use all available diplomatic channels for the easing of international tensions, they remain convinced of the necessity of continuing to improve the combined defence power of the North Atlantic Alliance. Towards the fulfilment of this aim you have approved the Paris agreements which ended the occupation of Western Germany and which enabled the German Federal Republic to join the defensive alliance of the West.

During the session several of my Ministers met with representatives of the ten provincial governments to make arrangements for a federal-provincial conference which will take place this autumn.

Meetings between the federal and provincial representatives were held in June for the purpose of determining a plan to share the costs of assistance to unemployed persons in need. The suggestions put forward at these meetings are now being studied by the provincial governments and the acceptances of three of them have already been received.

In the early months of the session the employment situation gave some concern but more recently the requests for labour have greatly increased and the expanding production, rising exports and prospects of bountiful crops indicate a continuing healthy state of the Canadian economy.

Because the economic well-being of the nation depends to such an extent on a high level of foreign trade, the government has pursued policies aimed at securing the most favourable export markets for the products of our labour and our land. At the international review of the General Agreement on Tariffs and Trade which took place last fall and winter, Canadian delegates were active in supporting a policy of removing trade restrictions and negotiating improved tariff arrangements.

A substantial revision of the Unemployment Insurance Act has been made in the light of past experience with this legislation. The coverage of the Act has been broadened, the periods of entitlement to benefits revised and the amount of both regular and supplementary benefits augmented.

To maintain the high standards of welfare measures in this country you have made amendments to the Blind Persons Act, the War Veterans Allowance Act and the Veterans Benefit Act.

Legislation has been enacted to provide for the inspection of meat and the establishment of standards for other agricultural products.

The amendments made to the Municipal Grants Act increase substantially the amounts to be paid by the government annually to the municipalities for their services to public buildings.

The various enactments relating to the Canadian National Railways have been consolidated in one statute.

You have passed a measure amending the National Parks Act and making provision for the establishment of a national park in the Province of Newfoundland.

Other measures you enacted include: the International River Improvements Act, the Foreign Aircraft Third Party Damage Act, the Canadian Forces Act, 1955, the Great Lakes Fisheries Convention Act and the Exportation of Power and Fluids and Importation of Gas Act.

Amendments have been made to the Criminal Code, the Canada Grain Act, the Railway Act, the Radio Act, the Prairie Farm Rehabilitation Act, the Defence Production Act, the Judges Act, the Canada Elections Act, the Transport Act, the Fisheries Improvement Loans Act, the Prairie Farm Assistance Act and the St. Lawrence Seaway Authority Act.

A Royal Commission has been set up to enquire into and report upon the prospects for Canada's economic future.

A Committee has been appointed to advise upon a uniform system of establishing manufacturers' prices for the application of the sales tax.

Members of the House of Commons:

I thank you for the provision you have made for all the essential services for the current fiscal year.

Honourable Members of the Senate:

Members of the House of Commons:

In taking leave of you at this time I pray that the blessing of Divine Providence may attend you."

The Honourable the Speaker of the Senate *pro tem* then said:

"Honourable Members of the Senate,

Members of the House of Commons:

It is the will and pleasure of His Excellency the Administrator of the Government of Canada that this Parliament be prorogued until Tuesday, the sixth day of September next, to be here holden; and this Parliament is accordingly prorogued until Tuesday, the sixth day of September next".
